2. EXECUTIVE SUMMARY

2.1. Details of the Scheme

2.1.1. A composite scheme of arrangement has been proposed by the Board of Directors of the Companies wherein SJSFPL is proposed to be amalgamated into and with AHSL from the Appointed Date 1, being April 1, 2024. Further, the scheme also involves the the demerger of the Marine Business Undertaking from AHSL and its vesting into SSIDL from the Appointed Date 2, being the Effective Date of the Scheme as defined therein, as well as the continuance of the Remaining Business of AHSL.

2.2. Scope, Usage and Purpose of Valuation

2.2.1. The scope of my services as per my Engagement Letter, is to arrive at a Fair Equity Share Exchange Ratio for Part B and Fair Equity Share Entitlement Ratio for Part C of the Scheme, as applicable, and issue a Report to be used by the Board of Directors of the Companies for representing to the regulatory authorities for compliance under the Companies Act, 2013.

2.3. Summary of the Valuation

Cost Approach	x	x	x	x

Source: Valuer's Analysis

2.3.1. I have considered the valuation base as 'Fair Value' and the premise of value as 'Going Concern'. Any change in the valuation base or premise could have a significant impact on the valuation analysis, and consequently, this Report.

2.3.2. I have analyzed the shareholding patterns of AHSL and SJSFPL. The entire equity share capital of SJSFPL is held by AHSL, which is ultimately held by APSEZ. Hence, the economic interest of both AHSL and SJSFPL is entirely vested in the same entity, APSEZ. As the Scheme envisages the amalgamation of SJSFPL into and with AHSL, AHSL cannot issue shares to itself being the holding company of SJSFPL and hence shall not require determination of any share exchange ratio.

2.3.3. Once the amalgamation has been affected, the Marine Business Undertaking of the AHSL is proposed to be demerged and vested into SSIDL. I have analyzed the shareholding patterns of AHSL and SSIDL. The entire equity share capital of both AHSL and SSIDL is held by APSEZ. As the economic interest of the shareholders of the holding company of SSIDL and AHSL does not

undergo any change on account of the proposed demerger, in my opinion, ascertaining the fair value of the equity shares of SSIDL and the Marine Business Undertaking is not required. Accordingly, I have considered it appropriate to ascertain a share entitlement ratio for the proposed demerger to reflect the currently subsisting effective economic interest for APSEZ and its shareholders.

3. SOURCES OF INFORMATION

I have relied on the following information provided by APSEZ for the preparation of this Report:

3. **Part C:** deals with the demerger of the Marine Business Undertaking of the Demerged Company and its vesting in the Resulting Company in accordance with Sections 230 to 232 of the Act;
4. **Part D:** deals with Remaining Business of the Demerged Company;

7. PROCEDURE FOR THE VALUATION

I have performed the following procedures to carry out this valuation analysis:

- 7.1 I had requested and was provided with the data as per the detailed requisition list;

- 7.2 Discussed with the representatives of APSEZ regarding the proposed Scheme;
- 7.3 Analyzed the financials and shareholding pattern of AHSL, SJSFPL and SSIDL;
- 7.4 Determined the Fair Equity Share Entitlement Ratio for Part C of the Scheme;
- 7.5 Prepared a draft report (Excluding the Fair Equity Exchange Ratio and Fair Equity Share Entitlement Ratio) and shared it with the Companies for confirming the facts stated in the Report;
- 7.6 Issued the final Valuation Report.

8. METHODOLOGY OF THE VALUATION

8.1 In order to arrive at the fair value of a company, there are three traditional approaches which can be considered:

8.1.1. Market approach:

The Market approach is a valuation approach that uses prices and other relevant information generated by market transactions involving identical or comparable assets, liabilities or a group of assets and liabilities, such as a business. The market approach should be applied and afforded significant weight if the subject asset or substantially similar assets are actively publicly traded, or there are frequent and / or recent observable transactions in similar assets.

8.1.2. Income approach:

The Income approach is a valuation approach that converts maintainable or future amounts such as cash flows or income and expenses, to a single current (discounted or capitalized) amount. The fair value measurement is determined based on the value indicated by current market expectations about those future amounts. The income approach should be applied and afforded significant weight if the income-producing ability of the asset is the critical element affecting value and / or reasonable projections of the amount and timing of future income are available for the subject asset.

8.1.3. Cost approach:

The Cost approach seeks to determine the business value based on the value of its assets. The Cost approach should be applied and afforded significant weight if the asset is not directly income-generating and the unique nature of the asset makes using an income approach or market approach unfeasible, or the asset can be recreated with substantially the same utility as the subject asset.

8.1.4. AHSL & SJSFPL

I have analyzed the shareholding patterns of AHSL and SJSFPL. The entire equity share capital of SJSFPL is held by AHSL, which is ultimately held by APSEZ. Hence, the economic interest of both AHSL and SJSFPL is entirely vested in the same entity, APSEZ. As the Scheme envisages the amalgamation of SJSFPL into and with AHSL, AHSL cannot issue shares to itself being the holding company of SJSFPL and hence shall not require determination of any share exchange ratio.

8.1.5. The Marine Business Undertaking & SSIDL

Once the amalgamation has been affected, the Marine Business Undertaking of the AHSL is proposed to be demerged and vested into SSIDL. I have analyzed the shareholding patterns of AHSL and SSIDL. The entire equity share capital of both AHSL and SSIDL is held by APSEZ. As the economic interest of the shareholders of the holding company of SSIDL and AHSL does not undergo any change on account of the proposed demerger, in my opinion, ascertaining the fair value of the equity shares of SSIDL and the Marine Business Undertaking is not required. Accordingly, I have considered it appropriate to ascertain an share entitlement ratio for the proposed demerger to reflect the currently subsisting effective economic interest for APSEZ and its shareholders.

9. BASIS FOR THE DETERMINATION OF SHARE EXCHANGE

- 9.1 The valuation of AHSL, SJSFPL, SSIDL, as applicable and required for the purpose, has been arrived at based on the methodology explained hereinabove, various qualitative factors relevant to the business, business dynamics and growth potential of the business and taking into consideration the information, key underlying assumptions and limitations as articulated hereinabove.
- 9.2 In the ultimate analysis, the Fair Equity Share Exchange Ratio will have to be arrived at by the exercise of judicious discretion and judgments taking into account all the relevant factors. There will always be several factors, such as the quality of management, present and prospective competition, market sentiment and other factors, which are not evident from financial information, but which influence the worth of a business. This concept is also recognized in judicial decisions.

10. ASSUMPTIONS, DISCLAIMERS, EXCLUSIONS, LIMITATIONS AND QUALIFICATIONS

- 10.1 This Report has been prepared for the purposes stated herein and should not be relied upon for any other purpose. This Report is restricted for the purposes as indicated in the Report but does not preclude the management of the Companies to provide a copy of this Report to the relevant

regulatory authorities whose review would be consistent with the intended use. I do not take any responsibility for any unauthorized use of this Report.

- 10.2 This Report is presented to facilitate the Board of Directors of the Companies to ascertain the fair value of the equity shares of the Companies, as mentioned hereinabove.
- 10.3 I will not be liable for any losses, claims, damages, or liabilities arising out of the actions taken, omissions or advice given by any other person. In no event shall I be liable for any loss, damages, cost, or expenses arising in any way from fraudulent acts, misrepresentations, or willful default on part of the management of the Companies or its directors, employees, or agents of the Companies.
- 10.4 In the course of the determination of the Fair Equity Share Exchange Ratio, I was provided with both written and verbal information, which I have evaluated through broad inquiry, analysis and review but have not carried out a due diligence or audit of the information provided for the purpose. I have also relied on data from external sources also to conclude the Fair Equity Share Exchange Ratio. These sources are believed to be reliable and therefore, I assume no liability for the truth or accuracy of any data, opinions or estimates furnished by others that have been used in this analysis. I have not been provided with the reports from the Registered Valuer for the fair valuation of the immovable assets. Accordingly, I have considered the book value of the assets and the liabilities as their fair value.
- 10.5 The valuation of the Companies has been performed based on the last available financial statements, as shared by the management of the Companies. As implied by the financial statements, the Companies are assumed to have those legal rights to the assets and be subject to those claims represented by the liabilities presented in the financial statements. As informed by the management of the Companies, there are no contingents liabilities which are expected to devolve or contingent assets with the Companies and there are no surplus assets in the Companies as of the date of this Report beyond those as are captured in this Report. Accordingly, I assume no responsibility and make no representations with respect to the accuracy or completeness of any information provided by and on behalf of the Companies.
- 10.6 Forward-looking statements and financial projections certified and provided by the management of the Companies have been considered for this Report. I do not provide any assurance on the achievability of the financial projections by the management of the Companies. I express no opinion as to how closely the actual results will correspond to the projected financials as the achievement of the financial projections is dependent on actions, plans and assumptions. As the events and the circumstances may not occur as are expected, the differences between the actual results and the financial projections might be material.
- 10.7 This Report and the results herein are specific to the purpose of valuation, are specific to the date of this Report and are necessarily based on the prevailing financial and economic conditions as

well as the written and oral information, as made available by the management of the Companies as on date of this Report. Events occurring after this date may affect this Report and the assumptions used in preparing it, and I do not assume any obligation to update, revise or reaffirm this Report.

- 10.8 I have not carried out a revaluation of any assets of the Companies, nor physically verified any assets of the Companies.
- 10.9 This Report is for the consumption of the Board of Directors of the Companies to assist in the recommendation and approval of a Share Entitlement ratio for the Scheme. Under no circumstances does this Report opine on the legal, tax and accounting validity of the Scheme and nor should it be construed as so. The final responsibility for the recommendation of the Share Exchange Ratio on which the proposed Scheme shall take place will be with the Board of Directors of the Companies who should take into account other factors such as their own assessment of the proposed Scheme.
- 10.10 This Report does not constitute a fairness opinion, solvency opinion, or an investment recommendation and is not to be construed as giving an opinion on making or divesting investments.
- 10.11 I am independent of the Companies and hold no specific interest in the Companies or any of the assets of the Companies, nor do I have any conflict of interest with the Companies.
- 10.12 The fee for this Report is not contingent upon the result of the valuation arrived therein.
- 10.13 I am aware that based on the opinion of the value expressed in this Report, I may be required to give testimony or attend judicial proceedings with regard to the valuation, although it is out of scope of the assignment. In such an event, the party seeking the evidence in the proceedings shall bear the full cost and the fees of the judicial proceedings, and the tendering of evidence before such authority, if any, will be as per the applicable laws.

Effect of the proposed Scheme

1. Shareholders (promoter)

Part B of the Scheme provides for and contemplates amalgamation of the Transferor Company with the Transferee Company. Given, however the fact that the entire paid-up share capital of the Transferor Company is held by the Transferee Company and its nominees, upon the Scheme becoming effective, the equity shareholder(s) of the Transferor Company would not become the equity shareholder(s) of the Transferee Company and the entire paid-up share capital of the Transferor Company shall stand cancelled and extinguished. Further, under Part B of the Scheme, the authorized share capital of the Transferor Company shall stand transferred to and be amalgamated/combined with the authorized share capital of the Transferee Company in the manner as stipulated in Clause 7 of Part B of the Scheme. Thus, under Part B of the Scheme, an arrangement is sought to be entered into between the Transferor Company and its equity shareholders.

2. Creditors

Part B of the Scheme does not contemplate any arrangement with the creditors of the Transferor Company. No compromise is offered under Part B of the Scheme to any of the creditors of Transferor Company. The liability towards the creditors of Transferor Company, under Part B of the Scheme, is neither being reduced nor being extinguished. Interest of the creditors of the Transferor Company would in no way be affected by Part B of the Scheme.

Further, as on date, the Transferor Company has no secured creditors and therefore, the question of any effect of the Scheme on any secured creditors does not arise.

Further, as on date, the Transferor Company has no outstanding debentures and therefore, the question of any effect of the Scheme on any such debenture holders or debenture trustee(s) does not arise.

As on date, Transferor Company has no outstanding public deposits and therefore, the question of any effect of the Scheme on any such deposit holders or deposit trustee(s) does not arise.

3. Employees and Directors

As stated in clause 5.1.2 (xvii) of Part B the Scheme, and with effect from the Effective Date, all the staff and employees of the Transferor Company, if any, who are in such employment as on the Effective Date shall become, and be deemed to have become, the staff and employees of the Transferee Company, and, subject to the provisions of the Scheme, on terms and conditions not less favourable than those on which they are engaged by the Transferor Company and without any interruption of or break in service as a result of the transfer and vesting of the Undertaking of the Transferor Company to the Transferee Company. In the circumstances, the rights of the employees of the Transferor Company would in no way be affected by Part B of the Scheme.

Upon Part B of the Scheme becoming effective, Transferor Company shall stand dissolved without being wound up. In this circumstance, the directors of Transferor Company shall cease to be the directors of Transferor Company.

None of the directors (as defined under the Act and the rules framed thereunder) of Transferor Company and their respective relatives (as defined under the Act and the rules framed thereunder) have any material interest in Part B of the Scheme.

Share Exchange Ratio and Valuation difficulties

Upon Part B of the Scheme becoming effective, no shares will be issued to the shareholders of the Transferor Company pursuant to the Scheme, as the Transferor Company is a wholly owned subsidiary of the Transferee Company. Since pursuant to the Scheme, there will be no issuance of shares from the Transferee Company to the Transferor Company, there is no valuation exercise required to be undertaken by the Transferor Company or the Transferee Company to determine the share exchange ratio.
