Specific Condition

Sno	Environmental Parameter	Condition Description (Specific)
1	AIR QUALITY MONITORING AND PRESERVATION	No construction activity beyond the existing layout area shall be undertaken for the project. Only modernization/ mechanization as envisaged in the present proposal shall be permissible. Being Complied. construction activity is planned in the existing layout area.
2	Marine/Coastal	Erosion of shoreline has been noted at the project location and adjoining areas due to existing port and hence Shore Management plan and beach nourishment plan need to be prepared and an implementation report needs to be submitted to the Ministry as a part of 6 monthly compliance report. Beach Nourishment strategy has to be developed with the help from a reputed scientific institute specialized in the subject. Being complied Appointed Andhra University Visakhapatnam for Shoreline Change Assessment Studies. The study is in progress.
3	Statutory compliance	All the recommendations and conditions specified by the Andhra Pradesh Coastal Zone Management Authority (APCZMA) vide letter No 338/CRZ/Port/2021 dated 24th October 2021 shall be complied with. Being complied
4	Statutory compliance	Consent to Establish/Operate for the project shall be obtained from the State Pollution Control Board as required under the Air (Prevention and Control of Pollution) Act, 1981 and the Water (Prevention and Control of Pollution) Act, 1974. Complied Obtained Consent to Establishment vide Order No. APPCB/ VSP/ VSP/ 113/CFE/HO/2012, dated 16.08.2022.
5	Statutory compliance	Necessary approvals to be taken during implementation and commissioning from statutory bodies concerned. This condition is being complied with.
6	Statutory compliance	Continuous online monitoring of air and water covering the total area shall be carried out and the compliance report of the same shall be submitted along with the 6 monthly compliance reports to the regional office of MoEF&CC. Being complied. GPL established 3 nos. of CAAQM stations as approved by SPCB and the data is connected to SPCB website. Marine & terrestrial monitoring is being carried on Fortnight basis and the reports are being submitted to SPCB on monthly basis.
7	Marine/Coastal	Spillage of fuel / engine oil and lubricants from the site are a source of organic pollution which impacts marine life, particularly benthos. This shall be prevented by suitable precautions and also by providing necessary mechanisms to trap the spillage. Being Complied. GPL is maintaining Oil spill contingency plan. It was observed from the records that the Port is conducting Mock drills periodically. 

8	WASTE MANAGEMENT	Necessary arrangements for the treatment of the effluents and solid wastes/ facilitation of reception facilities under MARPOL must be made and it must be ensured that they conform to the standards laid down by the competent authorities including the Central or State Pollution Control Board and under the Environment (Protection) Act, 1986. The provisions of Solid Waste Management Rules, 2016. E- Waste Management Rules, 2016, and Plastic Waste Management Rules, 2016 shall be complied with. Being complied. - GPL established and operating 2 Nos. of Sewage Treatment Plants of 30 & 5 KL capacity and the treated water is being used for on-land greenbelt development. - In consultation with GVMC Authorities GPL made arrangements for collecting the domestic solid waste regularly and disposing to GVMC dump site. (Attached as Annexure – XIII) - Form-3 of Annual report of E-waste generated & disposed as per E-Waste (Management) Rules, 2016 and its Amendments are submitted to APPCB before 30th June. Latest submission is on 25.06.2021 – Annexure – V - Disposing the plastic waste to the authorized plastic waste recyclers.
9	Human Health Environment	Necessary arrangement for general safety and occupational health of people should be done in letter and spirit. Being complied. GPL is operating an Onsite Health Centre (OHC) to provide First Aid facility to the victims
10	AIR QUALITY MONITORING AND PRESERVATION	The dust suppression measures for the proposed increase in the cargo should be ensured through mechanized handling of cargo and conveyance. The Port is yet to start implementation of cargo enhancement.
11	WATER QUALITY MONITORING AND PRESERVATION	The waste water from oil spillage or cargo should be treated and disposed. Being complied. Maintaining Oil spill contingency plan.
12	Statutory compliance	As per the Ministry's Office Memorandum F. No. 22-65/2017-IA.III dated 30th September, 2020, the project proponent shall abide by all the commitments made by them including pollution control, environmental protection and conservation, R&R, wildlife and forest conservation/protection measures including the NPV, Compensatory Afforestation etc, either proposed by the project proponent based on the social impact assessment and R&R action plan carried out during the preparation of EIA report or prescribed by EAC, shall also be implemented and become part of EMP. This condition is complied with.

General Condition

Sno	Environmental Parameter	General Condition
-----	-------------------------	-------------------

1	AIR QUALITY MONITORING AND PRESERVATION	The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5 in reference to PM emission, and SO2 and NOx in reference to SO2 and NOx emissions) within and outside the project area at least at four locations, covering upwind and downwind directions. Being Complied Established & operating 3 nos. of Continuous Ambient Air Quality Monitoring stations (CAAQM) in the following locations for monitoring the Ambient Air Quality within the Port as approved by the State Pollution Control Board and the data connected to APPCB website. 1. Administrative office towards H.B. Colony (Station 1): 2. Project site office building towards Venkannapalem (Station 2) 3. Watch Tower – 4 towards Gangavaram village (Station3) Submitting the CAAQM daily average reports to SPCB on monthly basis.
2	AIR QUALITY MONITORING AND PRESERVATION	Appropriate Air Pollution Control (APC) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply prescribed emission standards. Being complied.
3	AIR QUALITY MONITORING AND PRESERVATION	Sourrding shall be carried out in the work site enclosing the dock/proposed facility area. This will act as dust curtain as well achieving zero dust discharge from the site. These curtain or shroud will be immensely effective in restricting disturbance from wind in affecting the dry dock operations, preventing waste dispersion, improving working conditions through provision of shade for the workers. Being complied. Provided closed warehouses with RCC lined flooring for storing & handling of the fertilizer cargo the warehouses provided with leachate collection system.
4	AIR QUALITY MONITORING AND PRESERVATION	Dust collectors shall be deployed in all areas where blasting (surface cleaning) and painting operations are to be carried out, supplemented by stacks for effective dispersion. Being complied. Being a port facility, no blasting activities are involved.
5	AIR QUALITY MONITORING AND PRESERVATION	The Vessels shall comply the emission norms prescribed from time to time. Being complied.
6	AIR QUALITY MONITORING AND PRESERVATION	Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board. Being complied. The Port is maintaining two DG Sets for back up purpose in a closed shed.
7	WATER QUALITY MONITORING AND PRESERVATION	Sewage Treatment Plant shall be provided to treat the wastewater generated from the project. Treated water shall be reused for horticulture, flushing, backwash, HVAC purposes and dust suppression. Being complied. Established & operating 2 Nos. of STPs of 5 KL & 30 KL capacity for treating the wastewater.
8	WATER QUALITY MONITORING AND PRESERVATION	A certificate from the competent authority for discharging treated effluent/ untreated effluents into the Public sewer/ disposal/drainage systems along with the final disposal point should be obtained. Being complied. Not discharging any untreated water into the public sewer/drain. The STP treated wastewater is being used for onland greenbelt development within the Port premises.

9	AIR QUALITY MONITORING AND PRESERVATION	A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments. Complied with the condition and submitted the reports to the concerned departments.
10	WATER QUALITY MONITORING AND PRESERVATION	The Project proponent shall ensure that no creeks or rivers are blocked due to any activities at the project site and free flow of water is maintained. Complied. There are no creeks or rivers passing through the project area.
11	WATER QUALITY MONITORING AND PRESERVATION	Appropriate measures must be taken while undertaking digging activities to avoid any likely degradation of water quality. Silt curtains shall be used to contain the spreading of suspended sediment during dredging within the dredging area. Being complied. Not drawing any ground water from the port area or its surroundings. The ground water quality is being monitored every month through an approved Agency and submitting the monthly monitoring reports to the APPCB, RO, VSP and Six Monthly Reports uploading through website to the MoEF & CC
12	WATER QUALITY MONITORING AND PRESERVATION	No ships docking at the proposed project site will discharge its on-board waste water untreated in to the estuary/ channel. All such wastewater load will be diverted to the proposed Effluent Treatment Plant of the project site. Being Complied. Not allowing the on-board ships to discharge their wastewater.
13	WATER QUALITY MONITORING AND PRESERVATION	Measures should be taken to contain, control and recover the accidental spills of fuel and cargo handle. Being complied.
14	WATER QUALITY MONITORING AND PRESERVATION	The project proponents will draw up and implement a plan for the management of temperature differences between intake waters and discharge waters. There is no intake and withdrawal of sea water is involved in the Port operations.
15	WATER QUALITY MONITORING AND PRESERVATION	Spillage of fuel / engine oil and lubricants from the construction site are a source of organic pollution which impacts marine life. This shall be prevented by suitable precautions and also by providing necessary mechanisms to trap the spillage. Being complied. Maintaining Oil spill contingency plan.
16	WATER QUALITY MONITORING AND PRESERVATION	Total fresh water use shall not exceed the proposed requirement as provided in the project details. Prior permission from competent authority shall be obtained for use of fresh water. Being complied. The average water consumption for the last six months i.e., from April 2022 to September, 2022 is 1085.32 KLD (Gardening & Dust suppression 949.87 KLD and Domestic, Ship Supply & Miscellaneous 135.45 KLD).
17	WATER QUALITY MONITORING AND PRESERVATION	No diversion of the natural course of the river shall be made without prior permission from the Ministry of Water resources. Being Complied Created a sand trap near the South breakwater. The material trapped in the sand trap is being lifted and the same is being used for beach nourishment on the north side of the North Boundary Wall.

18	WATER QUALITY MONITORING AND PRESERVATION	All the erosion control measures shall be taken at water front facilities. Earth protection work shall be carried out to avoid erosion of soil from the shoreline/boundary line from the land area into the marine water body. Being Complied Created a sand trap near the South breakwater. The material trapped in the sand trap is being lifted and the same is being used for beach nourishment on the north side of the North Boundary Wall.
19	ENERGY PRESERVATION MEASURES	Provide solar power generation on roof tops of buildings, for solar light system for all common areas, street lights, parking around project area and maintain the same regularly.This condition will be complied with the extent possible.
20	ENERGY PRESERVATION MEASURES	Provide LED lights in offices and project areas.This condition will be complied with the extent possible.
21	WASTE MANAGEMENT	Dredged material shall be disposed safely in the designated areas.Being complied.
22	WASTE MANAGEMENT	Shoreline should not be disturbed due to dumping. Periodical study on shore line changes shall be conducted and mitigation carried out, if necessary. The details shall be submitted along with the six monthly monitoring reports.Being complied Appointed Andhra University Visakhapatnam for Shoreline Change Assessment Studies. The study is in progress.
23	WASTE MANAGEMENT	Necessary arrangements for the treatment of the effluents and solid wastes must be made and it must be ensured that they conform to the standards laid down by the competent authorities including the Central or State Pollution Control Board and under the Environment (Protection) Act, 1986. Established & operating 2 Nos. of STPs of 5 KL & 30 KL capacity for treating the wastewater. There is no solid waste generation involved within the Port except food waste. The same is being disposed to the Dumping yard through GVMC for further treatment.
24	WASTE MANAGEMENT	The solid wastes shall be managed and disposed as per the norms of the Solid Waste Management Rules, 2016. Being complied. In consultation with GVMC Authorities GPL made arrangements for collecting the domestic solid waste regularly and disposing to GVMC dump site.
25	WASTE MANAGEMENT	Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Waste Management Rules, 2016.Being complied.
26	WASTE MANAGEMENT	A certificate from the competent authority handling municipal solid wastes should be obtained, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project. Complied. In consultation with GVMC Authorities GPL made arrangements for collecting the domestic solid waste regularly and disposing to GVMC dump site
27	WASTE MANAGEMENT	Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.Being Complied. Form-3 of Annual report of E-waste generated & disposed as per E-Waste (Management) Rules, 2016 and its Amendments are submitted to APPCB before 30th June.

28	WASTE MANAGEMENT	Oil spill contingency plan shall be prepared and part of DMP to tackle emergencies. The equipment and recovery of oil from a spill would be assessed. Guidelines given in MARPOL and Shipping Acts for oil spill management would be followed. Mechanism for integration of terminals oil contingency plan with the overall area contingency plan under the co-ordination of Coast should be covered. Being complied and is meeting the recommendations of EMP and DMP viz., Submitting terrestrial as well as marine water monitoring reports to APPCB on monthly basis. Submitted Environment Audit Statement (FORM-V) on 30.09.2022 for the year 2021-2022. Attached as Annexure – VII. Submitting the half yearly reports regularly to Regional Office, MoEF Self-certified 1st half yearly compliance report for the period from April 2021 to September 2021 submitted on 29.11.2021 through web site. NABL Accredited Agency certified compliance report for the 2nd half for the period from October 2021 to March 2022 was uploaded through website on 30.05.2022. Screen shot of the compliance uploaded through website is attached as Annexure – VIII Conducting Mock drills for Marine / Land activities from time to time. Attached as Annexure – IX.
29	GREENBELT	Green belt shall be developed in area as provided in project details with a native tree species in accordance with CPCB guidelines. Developed plantation of 5.0 Lakhs saplings in about 318.21 acres within the Port premises besides existence of Prosopis in an extent of about 150 Acres covering periphery of all yards, roads, buildings and all along conveyor belt. Maintaining 50 m width of green belt towards North and North-West direction with special emphasis towards habitation i.e., HB Colony, Peda Gantyada, Venkannapalem, Kongapalem & Gangavaram village. Developed High Density Plantation (Miyawaki) within the Port premises in an extent of 1.0 Acre with 12,120 no. of plantation, as directed by APPCB Participated in Green Visakha – Clean Visakha - Green Visakha – Clean Visakha – One million Tree Plantation Programme – GPL completed the targeted plantation of 50,000 by 18.08.2022 against the target of 50,000 Established exclusive nursery with 80,000 saplings and employed 140 people to maintain and improve the green belt on continuous basis. About Rs.1.85 Cr per annum is being spent for the development of green belt in the true spirit.
30	GREENBELT	Top soil shall be separately stored and used in the development of green belt. Being complied.
31	Marine/Coastal	Dredging shall not be carried out during the fish breeding and spawning seasons. Being complied.
32	Marine/Coastal	Dredging, etc shall be carried out in the confined manner to reduce the impacts on marine environment. Being complied.
33	Marine/Coastal	The dredging schedule shall be so planned that the turbidity developed is dispersed soon enough to prevent any stress on the fish population. Being complied.
34	Marine/Coastal	While carrying out dredging, an independent monitoring shall be carried out through a Government Agency/Institute to assess the impact and necessary measures shall be taken on priority basis if any adverse impact is observed. Noted and complied with the condition.

35	Marine/Coastal	A detailed marine biodiversity management plan shall be prepared through the NIO or any other institute of repute on marine, brackish water and fresh water ecology and biodiversity and submitted to and implemented to the satisfaction of the State Biodiversity Board and the CRZ authority. The report shall be based on a study of the impact of the project activities on the intertidal biotopes, corals and coral communities, molluscs, sea grasses, sea weeds, sub-tidal habitats, fishes, other marine and aquatic micro, macro and mega flora and fauna including benthos, plankton, turtles, birds etc. as also the productivity. The data collection and impact assessment shall be as per standards survey methods and include underwater photography. Work order issued to M/s. Indomer Coastal Hydraulics for conducting a detailed marine biodiversity management plan on marine, brackish water and fresh water ecology and biodiversity. The study is in progress.
36	Marine/Coastal	Marine ecology shall be monitored regularly also in terms of sea weeds, sea grasses, mudflats, sand dunes, fisheries, echinoderms, shrimps, turtles, corals, coastal vegetation, mangroves and other marine biodiversity components including all micro, macro and mega floral and faunal components of marine biodiversity. Being Complied. Appointed an authorized agency to carry-out well as marine water monitoring and submitting the reports to A.P. Pollution Control Board on monthly basis.
37	Marine/Coastal	The project proponent shall ensure that water traffic does not impact the aquatic wildlife sanctuaries that fall along the stretch of the river. There is no river stretches are adjoining with the Sea within the Port limits.
38	Human Health Environment	The work space shall be maintained as per international standards for occupational health and safety with provision of fresh air respirators, blowers, and fans to prevent any accumulation and inhalation of undesirable levels of pollutants including VOCs. Being complied.
39	Human Health Environment	Workers shall be strictly enforced to wear personal protective equipment like dust mask, ear muffs or ear plugs, whenever and wherever necessary/ required. Special visco-elastic gloves will be used by labour exposed to hazards from vibration. Being complied. All the regular and contract employees are provide with Personal Protective equipment and strictly following.
40	Human Health Environment	In case of repair of any old vessels, excessive care shall be taken while handling Asbestos & Freon gas. Besides, fully enclosed covering should be provided for the temporary storage of asbestos materials at site before disposal to CTSDf. Being complied.
41	PUBLIC HEARING	Safety training shall be given to all workers specific to their work area and every worker and employee will be engaged in fire hazard awareness training and mock drills which will be conducted regularly. All standard safety and occupational hazard measures shall be implemented and monitored by the concerned officials to prevent the occurrence of untoward incidents/ accidents. Being complied. Conducting Tool Box Talk (TBT) programme on regular basis to create through awareness on safety aspects. Periodical mock drills are being conducted to create awareness on safety issues.
42	Human Health Environment	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented. Being complied.
43	Human Health Environment	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project. Being complied. Being complied. Having a dedicated Environment Management Team headed by Vice President.

44	Human Health Environment	Occupational health surveillance of the workers shall be done on a regular basis. Being complied. Operating an onsite health center to attend emergency first aid to the workers.
45	Corporate Environmental Responsibility	The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/ deviation/ violation of the environmental / forest /wildlife norms/ conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report. Being complied. Implementing all the statutory regulations / directions prescribed and submitting the compliance reports periodically to the concerned monitoring department's viz., MoEF&CC, CPCP & SPCB.
46	Corporate Environmental Responsibility	A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.
47	Corporate Environmental Responsibility	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report. Complied. The study was completed and reports received.
48	Corporate Environmental Responsibility	Self-environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out. Being complied. - Submitting Annual Environment Statement in form – V - Submitting Self certified EC Compliance for 1st half - year to MoEF&CC - Submitting NABL Accredited Agency certified EC Compliance for 2nd Half-year to MoEF&CC.
49	MISCELLANEOUS	The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponent's website permanently. Complied . The EC was published in vernacular newspapers "The New India Express" (English) & Surya (Telugu) on 31.12.2021.
50	MISCELLANEOUS	The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt. Complied.
51	MISCELLANEOUS	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis. Complied. Self-certified 1st half yearly compliance report for the period from April 2021 to September 2021 submitted on 29.11.2021 through web site. NABL Accredited Agency certified compliance report for the 2nd half for the period from October 2021 to March 2022 was uploaded through website on 30.05.2022. Screen shot of the compliance uploaded through website is attached as Annexure – VIII

52	MISCELLANEOUS	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal. Being Complied Self-certified 1st half yearly compliance report for the period from April 2021 to September 2021 submitted on 29.11.2021 through web site. NABL Accredited Agency certified compliance report for the 2nd half for the period from October 2021 to March 2022 was uploaded through website on 30.05.2022. Screen shot of the compliance uploaded through website is attached as Annexure – VIII
53	MISCELLANEOUS	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company. Complied. For the year 2021-2022, Environmental Statement – Form – V submitted on 30.09.2022.
54	MISCELLANEOUS	The criteria pollutant levels namely; PM2.5, PM10, SO2, NOx (ambient levels) or critical sectoral parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain. Established & Operating 3 No. of Continuous Ambient Air Quality Monitoring stations at the below mentioned located as suggested by SPCB within the Port premises to monitor the Ambient Air Quality and the data is being uploaded to APPCB website. i. Administrative office towards H.B. Colony (Station 1); ii. Project site office building towards Venkannapalem (Station2) iii. Watch tower – 4 towards Gangavaram village (Station3)
55	MISCELLANEOUS	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project. This condition is being complied with.
56	MISCELLANEOUS	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government. This condition is being complied with.
57	MISCELLANEOUS	The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee. This condition is being complied with.
58	MISCELLANEOUS	No further expansion or modifications in the project shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC). This condition is being complied with.
59	MISCELLANEOUS	Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986. This condition is being complied with.
60	MISCELLANEOUS	The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner. This condition is being complied with.
61	MISCELLANEOUS	The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions. This condition is being complied with.
62	MISCELLANEOUS	The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports. This condition is being complied with.

63	MISCELLANEOUS	The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter. This condition is being complied with.
64	MISCELLANEOUS	Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010. This condition is being complied with.
