The ToR for the proposal was issued on 07.04.2011. The required EIA studies was undertaken including conduct of Public Hearing on 14.08.2012. The project was recommended by Gujarat Coastal Zone Management Authority (GCZMA) vide letter No. ENV-10-2012-31-E dated 11th May 2012 and was appraised to the EAC for obtaining Environment and CRZ clearance. As the diversion of forest land was under process at the time of consideration of proposal for Environmental Clearance, the same was excluded from the EC granted to AHPPL vide letter no. F.No.11-150/2010-IA-III dated 3rd May 2013. Hence the total area available for port development was 496.63 Ha. AHPPL commenced first five-year port development in the available area. In the first phase of development, AHPPL has constructed 6 berths out of the proposed 12 berths, a total of 21.63 MMTPA of cargo was handled in the last financial year 2019-2020 out of the approved 84.1 MMTPA. Now out of 376.64 Ha applied forest land, the Stage-I forest clearance has been granted for an area of 301.0199 Ha vide order dated 17th October 2016 (210.1594 Ha.) and 19th October 2016 (90.8605 Ha.) as mentioned below.

CRZArea	Area (Ha)
CRZ-IB	67.80
CRZ-II	84.96
NDZ	0.63
CRZ-III	9.38
Total Forest Area within CRZ	162.77
Total Forest Area Outside CRZ	138.25
Total Forest Area	301.02

- (xxviii) The proposal was appraised by the Gujarat Coastal Zone Management Authority (GCZMA) in its 47th meeting held on 3rd February 2020, where the committee recommended that the AHPPL shall comply to all the condition of earlier recommendations issued in letter no. ENV-10-2012-31-E dated 11th May 2012. The GCZMA recommendations has been submitted.

Brief description of Socio-economic condition of local people: The proposed project site is located in the district of Surat. Surat is a district in the state of Gujarat, with Surat city as the administrative headquarters of this district. Cumulative population in the study area is 60,343 with 41,636 males and 18,707 females. The Sex Ratio was found at 449 females per thousand males in the study area, with that of District's and state's ratio of 787 and 919 respectively. The major source of economic activity in the study area is employment and business opportunities associated with the industries in the region. About 4% of the workers are Cultivators, 3% were agriculture labors,1% workers belong to household industry and 92% belongs to other workers group. 90% of the total populations are literates, which is more than the national literacy rate of 74.04% and state's literacy rate of 75.84%. Based on the field observations, majority of the children in the study area are educated only up to 8th standard.

- (xxix) **Land acquisition and R&R issues involved:** The proposed project only involves diversion of forest land. No acquisition of land is envisaged. Therefore R&R is not applicable.

(xxx) Employment potential, No. of people to be employed: A total of 1200 people will be employed for the current project, inclusive of temporary and permanent employees. The detailed breakup of employee numbers during both construction and operation phases are given below.:

Phase	Employment Type	No. of Persons
Construction	Permanent	50
	Temporary	400
Operation	Permanent	150
	Temporary	600
Total		1200

- (xxxi) **Benefits of the project:**
Improvement in Physical Infrastructure
 - Development of facilities and infrastructure will lead to economic growth in the region.
 - Proposed development will lead to Industrializations in the form of port associated industries**Improvement in Social Infrastructure**
 - Livelihood Development Programs through CSR Activities.
 - Drinking water facility for neighboring villages.**Employment Potential**
 - Proposed Development will lead to creation of both direct and indirect job opportunities.

- (xxxii) **Brief summary of specialised Studies carried out for the project as per the ToR:** The proposed project pertains to obtaining the Environmental and CRZ Clearance for the forest land that was excluded in the Environmental and CRZ Clearance granted on 3rd May 2013 (F.No.11-150/2010-IA-II) for the development of multi-cargo port with supporting utilities and infrastructure facilities at Hazira, Surat, Gujarat. The forest land was excluded as the Stage-I Forest Clearance was in process. Realizing that, the project was granted Standard ToR with few specific ToR that pertains to CRZ mapping of the proposed project site, compliance to previous EC, and also traffic impact assessment. Based on the CRZ mapping it was identified that the project area falls in CRZ-I(B), CRZ-II, and CRZ-III areas. The port has been complying to all the stipulated conditions as part of the EC and a RO certified compliance report has been submitted as part of this document. From the traffic impact study, it was found that the present road infrastructure is adequate to support the traffic that is envisaged to increase once the port achieves its full operational capacity of 84.1 MTPA. However, as part of the EIA, Air Quality Modelling and Noise Modelling were done and it was estimated that the peak increase in particulate matters, SO_x and NO_x are below the prescribed CPCB standards with PM₁₀ - 88.23 µg/m³, PM_{2.5} - 38.18 µg/m³, SO₂ - 15.77 µg/m³, and NO₂ - 21.43 µg/m³. From the noise modelling, it was observed that the ambient noise level would not exceed beyond the limits beyond the port boundary. And, based on the ecological survey, the forest land for diversion is covered with a mono culture Prosopis juliflora which enunciates the fact that the forest doesn't host any diversity.

- (xxxiii) **Details of Court cases:** There are no court cases against the proposed project.
4. The EAC, taken into account the submissions made by the project proponent that the current proposal only pertains to the inclusion of the 301.0199 ha of forest land without any change in other approved configuration and profile of the cargo for which the EC was granted in 2013, had a detailed deliberation during its 241st meeting on 25-26 August, 2020. After a detailed deliberation, the EAC recommended the proposal for grant of Environmental and CRZ Clearance for the inclusion of forest land amounting to 301.0199 Ha with the specific conditions, in addition to all standard conditions applicable for such projects.
5. The Ministry of Environment, Forest and Climate Change has considered the proposal based on the recommendations of the Expert Appraisal Committee (Infrastructure, CRZ and other Miscellaneous projects) and hereby decided to grant Environmental and CRZ Clearance for the inclusion of forest land amounting to 301.0199 Ha under the EIA Notification, 2006 as amended and CRZ Notification 2011, subject to strict compliance of the following specific conditions, in addition to all standard conditions applicable for such projects.
