Kind Attn: Dr. Shamila Monteiro

Sub: Submission of Environmental Statement (Form-V) for the FY 2020-21.
Ref: Consent Order No. 12/2019-PCB/347405/RC002737 dated 24.03.2020

Respected Madam,

With reference to the captioned subject and cited references above, we submit herewith the Environmental Statement of M/s Adani Murmugao Port Terminal Private Limited, in Form-V prescribed under Rule 14 of the Environment (Protection) Rules 1986 for the financial year ending 31st March 2021.

Submitted for your kind information and records.

Thanking You

For Adani Murmugao Port Terminal Private Limited,

Authorized Signatory

CC: Environment Cell, Mormugao Port Trust.

Welcome ADANI MURMUGAO PORT TERMINAL PVT. LTD

Application No: 1099985

You have successfully submitted Environmental Statement for this duration 2020-2021.

View Environment Statement
Environmental Statement for the financial year ending on 31st March on or before 30th of September every year.

**PART A**

(i) Name and address of the owner/ occupier of the industry operation or process : ADANI MURMUGAO PORT TERMINAL PVT. LTD

(ii) Industry category Primary-(STC Code) Secondary-(STC Code) : RED, Ports and harbour, jetties and dredging operations

(iii) Production capacity : Mili Liter

</tr>
</tbody>
</table>
PART F

Please specify the characterization (in terms of composition and quantum) of hazardous as well as solid wastes and indicate disposal practice adopted for both these categories of wastes. Hazardous waste includes used oil (Cat 5.1) and cotton waste contaminated with oil (Cat 5.2). Used oil and the oil soaked cotton waste generated during various maintenance activities are collected in barrels kept in earmarked covered hazardous waste storage area as per the provisions of Hazardous Waste Management Rules, 2016 as amended & disposed of through GSPCB authorized / registered recycler.

• The used batteries and E-waste also stored in workshop storage area and disposed through approved vendor in line to E-waste Management Rules, 2016 as amended.
• Hazardous waste return in Form 4 was submitted in line with the Hazardous and Other Wastes (Management & Trans boundary Movement) Rules, 2016.
• E-waste return in Form 3 was submitted in line with the E-waste Management Rules 2016
• Solid Waste includes mainly domestic waste (office & kitchen waste) which is disposed through Mormugao Municipal Council and also fed in Organic Waste Composter (In FY 20-21 - 1.203 MT of food waste was disposed to MMC and 0.379 MT was fed into OWC).

PART G

Impact of the pollution abatement measures taken on conservation of natural resources and on the cost of production All the domestic waste water generated at site is treated at existing sewage treatment plant located at PWD Baina. Unit has developed adequate green belt within port premises.

PART H

Additional measures/ investment proposal for environmental protection abatement of pollution, prevention of pollution • Unit is undertaking Regular Environmental Monitoring at port & surrounding area through MoEF&CC recognized laboratory. All the monitored environmental parameters are found well within the standards prescribed & the details of monitored data is regularly submitted to GSPCB, CPCB, MoEF&CC and other concerned authorities.

• Unit has also installed Continuous Ambient Air Quality Monitoring System (CAAQMS) for the parameters SO2, NOx, PM10 & PM2.5 and the monitored real time data is connected with GSPCB server.
• Coal Stacks are kept covered with tarpaulin at all time, except during loading & unloading operations and adequate water Sprinkling is carried out regularly during loading and unloading operations.
• Unit has also provided dump pond and conveyance channel for collection of runoff generated from the coal yard.
• Unit has provided Sprinklers at coal yard & conveyor system and carrying out regular water sprinkling to control the fugitive dust. Wind screen covered with agronet/ jute cloth is provided around the periphery of coal yard.
• Unit has installed 2 cameras in coal stack yard and its online connectivity has been provided to GSPCB.
• As a precautionary measure an anemometer has been installed along with a hooter on Substation building and three different alert levels have been configured in PLC based on the Wind speed as follows:
  - For 25km/h to 27.99km/h - Hooter blows for 5 Seconds followed by a 1 Second Stop and the same repeats.
  - For 28km/h to 29.99km/h - The Hooter blows for 2 Seconds followed by a 1 second stop and the same repeats.
  - For Above 30km/h - The Hooter continuously blows without any stop.

Unit has taken continuous steps for developing green belt area within port premises. Vertical garden has also
been developed as part of Environment Initiatives.

PART I

Any other particulars for improving the quality of the environment •Integrated housekeeping management is undertaken at top priority to maintain neat and clean working environment in the plant area.

•Port has been certified as “Single Use Plastic Free Port” by CII Delhi.

•AMPTPL is 5S Certified Port by National Productivity Council (NPC).

•Baffle walls have been constructed in Dump ponds to increase sedimentation of Cargo.

•Working towards achieving “Zero Waste Inventory” as per our Group Environment Policy and all wastes are being handled in line with 5R Principle.

Remarks :
