

Vizhinjam International Seaport Limited

(A Government of Kerala Undertaking)

VISL/2016-17/EE&EI-19/1132

29th November 2018

To

Additional Principal Chief Conservator of Forests (C),
Ministry of Environment Forest and Climate Change,
Regional Office (SZ), Kendriya Sadan,
4th Floor, E&F Wings, 17th Main Road,
Koramangala II Block, Bangalore-560034 (Karnataka)

Dear Sir,

Sub: Half yearly Compliance report of Environmental and CRZ clearance for Vizhinjam International Multipurpose Deepwater Seaport for the period of April 2018 to September 2018 – Reg.

Ref: 1) F.No.11-122/2011-IA.III dated 3rd January 2014 of MoEF issuing Environmental Clearance
2) No.1285/A3/13/KCZMA/S&TD dated 24th August 2013

This has reference to the Environmental & CRZ Clearance (EC) issued on 3rd January 2014 (Ref 1) by the Ministry of Environment, Forest & Climate Change (MoEF&CC) to the proposed Vizhinjam International Multipurpose Deepwater Seaport at Vizhinjam in Thiruvananthapuram District of Kerala State based on the recommendation of KCZMA vide the reference cited (2).

The compliance report of the conditions stipulated in the cited reference for the half yearly period from April 2018 to September 2018 is enclosed herewith, in both hard and soft copy for record and reference.

Yours Sincerely

For Vizhinjam International Seaport Ltd

Managing Director & CEO

Encl: Compliance Report (hard & soft copy)

VIZHINJAM INTERNATIONAL SEAPORT LIMITED

(A Government of Kerala Undertaking)

Vizhinjam International Deepwater Multipurpose Seaport

**Half yearly Compliance report of conditions of
Environmental and CRZ Clearance**

Period: April 2018 to September 2018

December 2018

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Status of conditions stipulated in Environmental and CRZ clearance.		

Half yearly Compliance report on conditions stipulated in Environmental & CRZ Clearance (Period: April 2018 to September 2018)		
Sl. No.	Conditions	Compliance Status as on 30-09-2018
11.	Specific Conditions	
(i)	"Consent for Establishment" shall be obtained from Kerala State Pollution Control Board under Air and Water Act and a copy shall be submitted to the Ministry before start of any construction work at the site.	Complied "Consent for Establishment" has been obtained from Kerala State Pollution Control Board (KSPCB) vide Consent No. PCB/HO/TVM/ICE/O8/2015 dated 15.09.2015 valid up to 31.07.2018. Subsequently the consent renewal application was submitted to KSPCB vide application number 7298974 dated 25 th April 2018, and it was renewed vide Consent No. PCB/HO/TVM/ICE-R/O2/2018 dated 19.07.2018 valid up to 31.07.2023. Copy attached as Annexure I .
(ii)	Project Proponent shall carry out intensive monitoring with regulatory reporting six monthly on shoreline changes to the Regional Office, MoEF.	Complied Shoreline monitoring for a stretch of 40 Km (20 Km on both sides of the project site) is being done and reports are regularly submitted to MoEF&CC as part of Six monthly compliance report. Report for the period April 2018 to September 2018 is enclosed as Annexure II in CD. The 1 st Mathematical Report prepared by L&T Infrastructure Engineering Pvt. Ltd. (LnTIEL) based on Shoreline Monitoring data for the period Feb'15-Feb'17 has been submitted with compliance report (April'17-September'17) in November'17. In continuation with the same practise AVPPL has submitted the shoreline data from March 2017 to February 2018 to LnTIEL for mathematical modelling to assess the impact on shoreline under the guidance of National Institute of Ocean Technology (NIOT). Mathematical modelling report prepared is vetted by NIOT and attached as Annexure III . The mathematical modelling report has affirmed that the shoreline change is in line to the prediction done as part of the EIA report. Long term shoreline change monitoring employing satellite images has been initiated through NIOT, 4 quarterly reports on shoreline changes have been submitted to KCZMA.
(iii)	The capital dredged material (7.6 Mm ³) shall be utilized	Being Complied No dredging was carried out during the

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018

CSR INTERVENTION FROM 01.04.2018 TO 30.09.2018

The CSR intervention during the compliance period focused on community level intervention in the following five major heads.

1. Education
2. Community Health
3. Sustainable Livelihood Development
4. Community Infrastructure Development &
5. Others

The CSR intervention focused to make a Clean, Green, Healthy and Prosperous Vizhinjam.

1. EDUCATION

During the compliance period, eight major projects have been undertaken under the head of Education. This included

- i. Summer camp for the kids
 - a. Venal Thumpikal
 - b. Arivanrangu
 - c. Changathikoottam
 - d. Snehakoodaram
 - e. Balajana Sangham
- ii. Literature meet
- iii. Open house-Merit Scholarship
- iv. Pravesanolsavam
- v. Anganwadi support
- vi. Parents meeting
- vii. Teacher's day celebration
- viii. English Language Skill Development

1.1 SUMMER CAMP

a. VENAL THUMPIKAL

'Venal Thumpikal', a two day summer camp for the children of Vizhinjam was organized on 12th and 13th April 2018 for the students of age group 10

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

to 14 years at CSR Training Hall, Vizhinjam. This is the second year of organizing Venal Thumpikal at Vizhinjam. It was participated by 46 students from the five wards of Vizhinjam. The camp was organized with a basic objective developing self-esteem, social commitment and to team up volunteers to become responsive citizen.

The first day training focused on sessions to improve self-confidence and self-esteem through classes, discussion, games and puzzles. The second day focused on teaming up of volunteers with more session, outdoor visits and deliberations. As Part of the programme, students visited Port site, made a transect walk through Kottappuram community to understand the issue of cleanliness and made a review prepared by students themselves. The training made the children to come-up with explorative skill to understand the local issues, observe it with deep sense of understanding, respond it in time to ensure social commitments with a spirit of volunteerism.

b. SUMMER CAMP - CHANGATHIKOOTTAM

A two day summer camp was organized for the merit scholarship students under the CSR of AVPPL-AF on 26th and 27th of April 2018. It was participated by 32 scholarship students. Imparting the much required organizing skills among the students was one of the important objectives of the programme. Towards that the students were divided in to five groups of Reception, Logistics, Programme arrangement, Documentation, News preparation and Cultural arrangements. The leaders for each group

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

were selected by the students themselves and entrusted to organize the entire camp. Following input sessions were organized part of the programme.

- i. Career orientation,
- ii. Adolescent and Social Media &
- iii. Child rights.

Two exposure visits were also conducted as part of the camp

- i. Visit to Port construction site &
- ii. Visit to Old age home – Snehasanthwanam and a participatory lunch with inmates.

The camp has provided the much needed insight on proper use of social media, child rights and CHILDLINE, upcoming Port and its prospects and the importance to create humanitarian values. The visit to old-age home and a lunch with the inmates was a true eye-opener to the students to understand the love and care to be given to such abandoned and aged people. In the evaluation, students appreciated the effort under CSR for making such a wonderful camp and requested to have quarterly engagements of the groups to refresh their mind.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

c. SNEHAKOODARAM

Adani Foundation under its CSR facilitated the three day children camp organized by HALP School and Education Department on 10, 11 and 12th of April 2018. 120 students of HALP School participated, where Adani Foundation constructed a two-storied building. The sessions focused on making craft items using waste materials, awareness on cleanliness, health and education.

d. BALAJANASANGHAM

Adani Foundation supported the Balajana Sangam Cultural Fest organised as part of the Kalajatha organised by ward councilor of Vizhinjam on 25th April 2018. It was participated by 35 students and 50 youth from Vizhinjam area.

e. ARIVARANGU – LITERATURE CAMP

Arivarangu, a month long literary camp for the selected children of Vizhinjam was organized from 9th April to 30th April 2018 at Mukkola, Vizhinjam, under the CSR of AVPPL-AF in association with CV Smaraka

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

Grandhasala, Thennoorkonam. It was first of its kind in Vizhinjam for the children's. The basic objective of the programme was to create interest among the students on reading books, making reviews of it and promoting literary works by the students. 40 students having interest in literary works participated. The students were divided into six groups and entrusted with 6 locally identified Resource Persons as mentor for each group. All students and mentors assembled on every Monday and Thursday to discuss debate and review the works. Following activities conducted as part of Arivarangu.

- Each student has provided three books from the Library.
- Bi-weekly meetings held to teach the students on how to make review of books.
- Six locally renowned people were selected as the Mentors/Resource Persons for the programme
- Every day, the meeting started with a presentation on any famous writer or orator by the mentors.
- Thereafter provided opportunities to the students to present the review made by the students based on the books they read. They evaluated the reviews and nurtured suggestions for improvement.
- A six member parents committee was also constituted and made part of the review meetings to create such a conducive atmosphere at homes to inculcate the habits of reading among the students and to make the parents supporting and promoting such qualities.

Output

- Among the 40 students who participated 12 have excelled in review writing as reviewed by the Resource Persons. The students reviewed 31 books during the time. It include famous books like "Mathilukal, Snehathinteyum maranahinteyum athiry, Vysali, Mukkuvannu

adani™	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018

Bhoothavum, Ariverum Kadhakal, Viswa /vikhyathamaya Mookku, Madyam Mattoru Visham, Life history of Darwin, Biriyan etc.

- Other than reading, students have come-up with their poems and stories which was also corrected and recommended by the Mentors.
- The students reviewed books, started writing English poems, Malayalam Poems which are evaluated by the Resource Persons

Sl.No.	Literature Camp Outcome	Total
1	Book Review	98
2	Pencil Drawing & Painting	36
3	English Poem	2
4	Malayalam Poem	1

- More importantly all the students have started reading books systematically first time in their life.
- Finally, the mentors and students decided to meet on a monthly basis and make debate on contemporary literature.

1.2 LITERATURE MEET – C.V. Smaraka Grandhasala

The monthly literature meet followed by the successful completion of summer literature camp was started at CV Smaraka library on 9th June 2018. Thereafter every second Saturday of the month from 2 p.m. to 5.p.m is scheduled for the literary camp. It is guided by 6 voluntary writers

June 09.06.2018	<ul style="list-style-type: none"> • WHO prescribed "10 core life skills" and its relevance in their life. 	<ul style="list-style-type: none"> • 27 students participated in the programme • Sessions learned the importance of Self-awareness, Self-esteem, Empathy, Effective communication, Interpersonal relationship, Critical thinking, Creative thinking, Problem solving, Decision making, Coping with Emotion and Coping with Stress in life.
July 14.07.2018	<ul style="list-style-type: none"> • Team Building and Concentration Exercise 	<ul style="list-style-type: none"> • 21 Students participated • Students learned on how to concentrate in studies and in other tasks.
August 11.08.2018	<ul style="list-style-type: none"> • LEADERSHIP- Basic Qualities to be practiced part of life skills L- Liveness; E- Efficiency; A-Aim; D-Dedication; E- Example; R- Relationship 	<ul style="list-style-type: none"> • 24 students participated • Planned Onam get-together • Selected 5 volunteers to organise the event.
September 08.09.2018	<ul style="list-style-type: none"> • Basics interpersonal and intra personal communication. 	<ul style="list-style-type: none"> • 22 students participated. • Practiced better communication skills.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

These programs cover specific themes such as goal setting, exam preparation, memory techniques, leadership & communication and life skills. Monthly open houses ensured quality changes in the overall performance of students in their academic and personal life. This also helped to make a joyful learning with focus on achieving the goals set by the students.

1.4 PRAVESANAOLSAVAM (School opening fest)

Adani Foundation joined with HALP Government School during the school opening day for the academic year celebration 2018-19, on 01.06.2018. The day witnessed different programme's starting from giving books to the students, planting trees as part of haritha-vidyalayam (Green-school) and rejuvenating teachers by lighting the lamp for joyful learning. The programme was inaugurated by the unit Head, CSR, Adani Foundation presided over by the PTA president Mr. Nizam and felicitated by School HM Mr. Johnson, SMC members, school teachers and PTA members. New saplings were planted in the school premises and sweets were distributed to all students and parents participated.

1.5 ANGANWADI SUPPORT

- **Distribution of Baby chairs to Anganvadies**

Anganvadies are the primary platform for kids, especially those from the weaker sections in the community to get basic education and health care facilities. There are 49 Anganvadies in five wards of Vizhinjam CSR intervention area. Unfortunately, the facilities in Angawadis are abysmal. Last year Adani Foundation provided Water purifies to all the 49 Anganvadies. This year it was decided to provide chairs for the kids in all the 49 Anganwadis falling in the five wards of CSR intervention area. The Objective of the programme is to provide better facilities for Anganvadies

Adani Foundation under CSR provided 600 baby friendly chairs to all 49 anganwadis during the compliance period. The programme was inaugurated by Mrs. Anitha, CDPO, Urban II, Trivandrum Municipal

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

Corporation. The following activities were discussed as part of the initiatives proposed under CSR for Anganwadi support.

- It is planned to construct a model anganwadi at Vizhinjam this year under the CSR of Adani Foundation. A suitable government land owned by ICDS in any of the divisions of Mulloor / Kottappuram / Venganoor / Vizhinjam / Harbour will be used for construction.

- Electrification and Water connection to selected Anganwadis. It is planned to do necessary electrification and pipelines for getting electricity and water connection to the anganwadis having own building in the five divisions of Vizhinjam. For that, it has been requested to provide the list of Anganwadis having own building.
- Under CSR, it is planned to do BALA (Building as Learning Aid) painting in selected anganwadis. Towards that the department may share a copy of modules, policies and rules for BALA available at the department at Women and Child Development.

1.6. Parents meeting (Scholarship student)

A parents meeting of scholarship students was held at CSR training center, Mukkola on 23rd June 2018, attended by 22 parents. Discussions were held on monthly open house and the year-long training calendar planned for the financial year by Adani Foundation. The objective of the meeting was to ensure proper guidance to be ensured by the parents to their children and bringing their ownership for sending the children in Open Houses. The parents appreciated the effort undertook for the monthly open houses and suggested following topics to be included in the Open Houses.

- Career skills and choice

adani™	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

- Personality traits
- Presentation skills
- Aptitude for higher studies
- Improvement in English
- Preparation for Competitive Examinations

All parents expressed their gratitude for the scholarship programme and the continued support and guidance promised to extend through open houses.

1.7. Teachers day celebration

The teacher's day was celebrated on 5th September 2018 at Vidhyadhiraja Public School, Venganoor by honouring the senior teachers. Two senior eminent educationists Mr. Venganoor Ramakrishnan Nair and Mr. Sreekantan Nair were the chief guests of the day. Both of them were felicitated by Adani Foundation for their contribution in the field of education. All teachers who participated the programme were also honoured.

1.8 English Language Skills

Adani Foundation under CSR has planned to continue the English Language skill course for the high school students from the fishing community during the year 2018-19. 200 students from Kottappuram

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

school, 136 from Venganoor Girls school and 113 from Vengonoor Boys school have been shortlisted for English courses. It is a 60 hour module titled **"Win with English"**. SB Global, one of the NSDC partners is the training provider for the programme. The topics covered for English language modules are (1) Ethics, (2) Principles (3) Communication Skills, (4) Vocabulary, (5) Articulation of words, (6) Articulation of ideas, (7) Feelings and emotions, (8) Critical listening and reading (9) Critical thinking (10) Creativity – oral, (11) Creativity–written and (12) Self-confidence.

2.2 | SOLID WASTE MANAGEMENT (SWM)

Foundation intervened in creating awareness among the community on SWM by installation of Thumboormozhi bins, Swachhagraha and Suchitha programmes.

a. Mangement of Thumboormozhi Bins (Alleppy Model)

Adani Foundation installed 21 Thumboormozhi Aero Bins for waste treatment in the three wards viz Vizhnjam, Harbour and Kottappuram in the year 2017-18. During the compliance period waste to the Aero bin is bought by the people from the nearby communities themselves. Thiruvananthapuram Corporation has engaged 9 staff for day to day operation and management of thumboormozhi.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

b. **Swachhagraha**

Adani Foundation initiated another important project viz "**Swachhagraha**" to create a behaviour change among the students with a culture of cleanliness. The project is aimed to inculcate behaviour change, education in cleanliness, sanitation, personal hygiene and civic consciousness amongst young minds. The activities under Swachhagraha included formation of a **Swachhagraha unit** with 20 school students and a nodal teacher. The students will be provided workbooks to prepare Self-Improvement Plan to become Swachhagrahi. Other activities included promoting personal hygiene, preventing littering behavior, identifying littering pockets in schools and premises, making a consumption checklist and finalize a plan and intervention to improve the culture of cleanliness. Permission has been accorded from Directorate of Public Instructions (DPI) to conduct the programme in selected 150 UP/HS of Thiruvananthapuram district. Till date programme has reached to 42 schools of the 5 wards.

c. **Environment Day – Awareness of waste related issues.**

Awareness cum cleaning programme was organized as part of world environment day on 5th June 2018, at Karimpallikkara, Kottappuram, Vizhinjam near the breakwater area where the community wastes has accumulated. Ward Councilor Kumari Shini W, Health Inspector Mr. Ashok Kumar and a team of 40 sanitation workers from Corporation, AF CSR team, Adani Environment team, HOWE staff, Contractors staff and the

adani™	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

community people have participated in the programme. The theme for the year was **"Beat Plastic Pollution"**, where the message has been given through awareness programme, posters and leaflets to the community on the environmental pollution caused by plastic waste.

On the occasion of World Environment Day (WED) on 5 June 2018, following activities are conducted in association with the environment department of Adani Vizhinjam Port Private Ltd and Vizhinjam Zonal Health division of Trivandrum Municipal Corporation. The details of the activities carried are given below.

- **School awareness and quiz programme**

The school awareness programmes clubbed with quiz competition and video show were organized on 6th and 7th June 2018, as part of the world environment day celebration. Prizes like Geometry boxes and umbrellas were distributed to the successful student in quiz competitions.

- **Magic Show on SWM**

A unique awareness programme on Solid Waste Management was organized at Mukkola. It was distinctive of its kind by entertaining a **Mobile Magic show** titled "**Anathapuri Vismaya Yathra**", giving awareness on Solid Waste Management and a **street theatre** giving message on preventing the outburst of epidemics during rainy season. The magic show was performed by a team from Magic Academy of Magician Muthucadu who are UNICEF brand ambassador for Kerala.

Adani Foundation supported in organizing the event at Vizhinjam along with Residence Association, Kudumbashree groups, Municipal Workers and the community. Shri. PNR Chowdhury, Executive Director, Adani

Foundation was the chief guest of the programme inaugurated by Smt. Omana, Mulloor Ward Councilor, as part of the programme, Adani Foundation honored all the 38 sanitation workers including Health Inspector of the Thiruvananthapuram Corporation for their service to the community and the wholehearted support extended for the CSR initiatives to make Vizhinjam clean.

2.3 PUBLIC SANITATION & CLEAN CAMPAIGN

Arogya Jagratha Programme (Clean Campaign Programme)

In view of rainy and summer season, a month long awareness campaign on cleanliness and precautions to be taken to prevent the communicable diseases in the entire communities of Vizhinjam was conducted jointly by Adani Foundation and Municipal Corporation of Thiruvananthapuram from 24th April 2018. The programme was planned to create door to door awareness, ensuring healthy sanitation habits, waste disposal and to look after any water agglomeration causing mosquito menace. The

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

programme was formally inaugurated by the Health Standing Committee chairman Mr. Sreekumar presided over by Mr. Santhosh, ward councilor, Venganoor ward, Kumari Shiny Kottappuram Ward Councilor, Unit CSR Head - AVPPL, and Health Supervisor. 150 community leaders, Adani Health Volunteers, Kudumbshree members and the sanitation wing of Trivandrum Corporation participated.

Cleaning campaign

Adani Foundation together with the sanitation wing of Trivandrum Municipal Corporation conducted a cleaning campaign on 13th September 2018 at Chenavilakom, Vizhinjam. It was conducted to prevent the outbreak of leptospirosis, as there were two leptospirosis cases reported from the Harbour ward of Vizhinjam. A total of 65 persons including 32 sanitation workers of Trivandrum Municipal Corporation and 33 community volunteers participated in the cleaning campaign. The team cleaned up the vegetation, pathways, drains and narrow roads close to Vizhinjam Harbour.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

2.4 OCKHI SUPPORT

In continuation of the support extended to Ockhi victims, Adani group has provided an amount of 2.5 crores to Kerala Government for the 50 Ockhi death cases reported.

2.5 DRINKING WATER SUPPLY

The supply of drinking water to the communities at Kottappuram and nearby areas was continued during the compliance period also. Every day 50,000 liters of water was transported through tanker Lorries to the communities under CSR of AF (Adani Foundation). For the same, 16 water tanks are provided in the wards. The treated water from the water treatment plant of Vizhinjam International Seaport Limited operated by Kerala Water Authority is used for this purpose.

In an effort to streamline 25MLD water supply to the five wards near Port, efforts were made by AVPPL-AF team along with VISL by visiting NHAI (National Highway Authority of India) in getting permission for cutting the roads. Further, our team also visited KWA (Kerala Water Authority) in speeding up the process of laying pending pipelines of approximately one K.M in length. Continuous follow-up with KWA and NHAI for three months has resulted in laying of pipelines and connecting drinking water from the 25mld plant to Kottappuram ward.

2.6 MEDICAL CAMP

Although Kerala has made significant gains in health indices like Infant Mortality Rate, Birth Rate, Death Rate and expectancy of life at birth, the reach out to get health facilities in the coastal and fishing communities are still remains as an alarming concern. Vizhnjam being one of the backward areas in the coastal belt of Kerala has reported high incidence of communicable diseases like malaria, chikungunya, dengue fever,

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

leptospirosis and swine-flu especially among the fishing communities. Hence AVPPL-AF conducted regular medical camps in the CSR intervention area. During the compliance period 13 medical camps were conducted in which 810 people were treated free of cost. The details are as follows.

Sl. No	Date	Camp	Place	Consulted (Nos.)

a. Eye Camp

Three Eye camps were conducted during the compliance period. The first Eye camp was conducted at Santhiniketan Public school, Mukkola on 11.05.2018 for the selected people from Mulloor and Venganoor ward, which has benefitted 72 community people. The camp was organized

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

under the CSR of AVPPL in association with Aradhana Eye Hospital. A team of 10 members including one doctor, 8 ophthalmologists and a coordinator from Aradhana Eye hospital participated in the camp. Among the patients checked, 15 were directed for specs and 6 were referred for cataract surgery. The follow-up support was also extended.

The second eye camp was organized in association with Kidarakuzhy Residence Association and **Aradhana Eye Hospital**, Trivandrum, where 58 people were screened. The medical team suggested dilation test for 9 people and cataract surgery for another 4 people. The support was extended further in taking the referral services.

The third eye camp was conducted in association with Mukkola Central Residence Association's Women Forum and Aradhana Eye hospital, Trivandrum where 56 people were screened. The medical team referred 12 people for cataract surgery and 19 for specs.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018

b. Blood Donation Camp (23.06.2108)

A blood donation camp was organized by Adani Foundation and AVPPL in association with Noorul Islam Institute of Medical Science and Research Foundation (NIMS) and Aids Control Society of Govt. Hospital Thycaud on 23rd June 2018. The Mobile Blood Bank Vehicle of Government Women and Child Hospital, Thycaud, Trivandrum came to project site along with the staff of NIMS hospital. The staff of AVPPL, HOWE, AF and Dredging team participated in the camp.

c. Cancer Awareness Programme

As part of the Community Health initiatives, a cancer awareness programme for community volunteers was organized in association with Abhayam Charitable trust, palliative care wing of Vizhinjam parish and Ashraya Volunteer Association on 20th September 2018 at St. Mary's Higher Secondary School auditorium. Dr. Jayakrishnan, Associate Professor Community Oncology Department, Regional Cancer Centre took the session. 150 community volunteers participated in the session. The basic objective of the session was to train the volunteers on the symptoms of cancer and equipping them to do pre-screening of people having symptoms of cancer and encourage them to attend the Cancer Detection Camp scheduled on 26th September 2018.

2.7 SUPOSHAN PROGRAMME (Sustaining Health and Nutrition)

SuPoshan is a community intervention programme executed under the CSR of Adani Foundation to curb Malnutrition and Anaemia among Children, Adolescent Girls and Women. Adani Foundation, Vizhinjam has been conducting this programme since October 2016. The project is executed intensively in all the five wards with specific objectives to reduce the occurrence of malnutrition amongst children by 95 % in three years, reduce malnutrition and anaemia amongst adolescent girls and pregnant & lactating women by 70%, create awareness about the issue of malnutrition and anaemia and related factors amongst all stakeholders, create a pool of resources to be utilised for combating the issue of Malnutrition and Anaemia and to support efforts in reducing Infant Mortality Rate (IMR) and Maternal Mortality Rate (MMR). During the

f. Children's Fest – Anganwadi Suposhan Kalolsavam

A Children's cultural fest was conducted at Vizhinjam on 6th April 2018. It was organized by the Suposham team along with CSR team and ICDS team it saw participation from 800 members including 375 kids, 54 Anganwadi workers, Helpers and parents. The programme started at 9.30 a.m. and concluded by 6.30 p.m. it provided opportunities for all the kids to perform in different cultural events like dance, songs, skit, action song, storytelling etc.

A valedictory function was organized part of the programme inaugurated by the Standing Committee Chairperson of Trivandrum Municipal Corporation Adv. Geetha Gopinath presided over by the ward councilor Mr. NA. Rasheed District Social Welfare Officer. Unit CSR head, CSR Project Officer, ICDS-CDPO and Supervisor were also present. Four Angawadi teachers who have completed more than 30 years of service as Angawadi teachers in Vizhinjam were recognized by Adani Foundation by giving

adani™	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

them memento. All kids who participated were given awards and mementos. It was a good occasion where the effort of Adani Foundation was applauded by all leaders, officers, Angawadi functionaries and the parents of kids.

g. Skit and Role plays

During the month of May 2018, SuPoshan team has introduced innovative community awareness programme through skits and role plays making the programme live and interesting. A total of 90 children of age group of 12 - 18 have been selected by all sanginis and were trained for different skits and role plays. The selected children have been trained by the Sanginis and CSR team. A total of 160 T-shirts were provided from "Adani Foundation-Suposhan" for the same. Following are the main themes selected for the skits/role plays.

- i. Importance of Nutritious food
- ii. Anemia

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

- iii. Leafy vegetables
- iv. Importance of Hand wash
- v. Adolescent's health and hygiene
- vi. Importance of vaccination
- vii. Importance of first 1000 days

The practice was done in a phased manner. In the first phase the sanginies gathered and prepared scripts for the role plays in local language and then finalized it in the review meetings. In the second phase they trained the children with the support of CSR team. This skit and role plays were performed in 40 locations covering 800 families.

Output

- Role plays and skits transferred the messages very effectively.
- Community participation is more in skits/role plays, especially the parents and the relatives of the children in organizing the events.
- This method seems quite effective for behavior modification.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018

h. Quiz, Painting and Chart preparation competitions - SuPoshan

A quiz and drawing competition was conducted at Pulloorkonam on 19th May 2018 under the theme of healthy habits. 34 children and their parents participated in the programme.

i. Suposhan - Environment day celebrations (05.06.2018)

As part of world environment day Mrs. Jasmine Rose, one of our Sangini (Health Volunteer) from Harbour ward organized awareness cum saplings plantation programme at Mathippuram, Anpathuveedu colony area. 25 Anganwadi students and their parents participated.

Mrs. Sreekala, another Sangini from Venganoor ward organized a world environment day programme with Adolescent Health club members. She has cultivated 11 varieties of saplings and planted them in the nearby communities at Venganoor.

Motivated by the existing model kitchen garden at CSR office Mukkola, a adolescent health club from Venganoor ward started kitchen gardens in vacant places at Venganoor. This has been coordinated by Mrs. Sreekala one of the Sanginis. Venganoor adolescent health club members collected Rs.3000 from nearby areas and provided note books and pen to the economically weaker students in that area on 01st June 2018.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

All those efforts undertaken by the community volunteers trained by Adani Foundation brought visible changes in the community and are appreciated by the community.

j. Anganwadi opening celebration

Amidst the Suposhan programme, two of the sanginis have organized Anganwadi opening celebrations. One was at ICDS No. 137 Vizhinjam and the other at ICDS No. 141 Edivizhunnavila. The sanginies Smt. Anitha.S.K, and Smt. Kavitha organized it with Anganwadi workers and distributed sweets as part of welcoming the new comers.

k. Breast feeding week celebration

World Breastfeeding Week is celebrated every year from 1st to 7th August to encourage breastfeeding and improve the health of babies around the world. Understanding the importance of the week, Adani Foundation carried out week long programme on promoting exclusive breastfeeding among children up to 6 months old. As WHO recommends exclusive breastfeeding to be started within one hour after birth until a baby is 6

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

months old and Nutritious complementary foods should then be added while continuing to breastfeed for up to 2 years or beyond.

The programme covered the theme "Breast feeding - Foundation of Life" and the sanginis have organized 6 community level programme to Inform, Anchor, Engage, Galvanize people especially the mothers on importance of breast feeding.

I. National Nutrition week celebrations

National Nutrition Week was observed from 1st September to 7th September 2018 and it created awareness among community people about the importance of having nutritious food for a healthy human life.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

The theme for National Nutrition Week 2018 was '**Go Further with Food**'. The sessions focused on main sources of nutritious food items to be chosen wisely by human being. Awareness programme covered largely on how one has to explore the nutritious food to be included in their daily routine like whole grains, fruits, vegetables, fat-free milk etc.

The program included awareness rally, awareness classes, exhibition of nutritious food items, painting competitions, promotion of kitchen gardens and street plays during the compliance period. The programme helped bringing behavioral change among mothers and kids in consuming nutritious food items. Further in selected schools, the students have painted important nutritious food items, exhibited nutritious food items. Community people have also participated in the rallies and skits conveying the message on providing food rich with protein, fats, vitamins and minerals to live, grow and function properly. The programme concluded by promoting the importance of keeping good health and wellbeing as an unhealthy diet increases the risk of many diet-related diseases.

Following are the important programme celebrated from 1st to 7th September as part of the national nutrition week celebration at Vizhinjam

3 SUSTAINABLE LIVELIHOOD DEVELOPMENT

The important program's undertaken under Sustainable Livelihood Development during the compliance period are

- i. Livelihood Development Programme and
- ii. Skill Development Programme.

3.1 LIVELIHOOD DEVELOPMENT PROGRAMME

Livelihood development is one of the clearly demystified on-going projects under CSR, as it gives a source of livelihood and makes the people self-reliant. The last two years of intervention in Livelihood development has changed the life of many especially the women from lower economic strata. During the compliance period, the programme has undergone following methodological process to streamline the intervention.

- Step-1: Awareness Generation and Registration for Livelihood Training.
 - Step-2: Basic Management Training and formation of groups.
 - Step-3: Preparation of bankable project proposals.
 - Step-4: Mobilizing Resources & linking groups to financial institutions for the project finance on the following ratio
 - i. Beneficiary contribution : 10% of project cost
 - ii. Bank loan : 40% of project cost
 - iii. Subsidy from Adani Foundation : 25% of project cost
 - iv. Subsidy from Govt through VISL : 25% of project cost
 - Step-5: Product Training
 - Step-6: Extend hand-hold support / Follow-up support
- One of the focuses of livelihood programme during the compliance period is to extend hand-hold support to the units that started functioning.

Present Status:

- 576 women from the five wards were trained on these management modules and they formed 17 livelihood groups.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

- Another group of 416 youth were trained on ASDC-NSDC skill courses of which 126 members have conveyed their interest to start their own enterprises.

a. Extending Handhold support to promote market linkages

An assessment on the performance of existing livelihood groups was done by Adani Foundation to understand the present status of the groups and areas where hand-hold support needed to be provided to sustain the groups. Following table gives the present status of the groups and follow-up plans to sustain it.

Sl. No	Name of Group	Type of Business	Present Status	Follow-up support as per the need assessment
1	Clean 4 U	Hi Tech Cleaning Group	<ul style="list-style-type: none"> •Group got SSI registration and started cleaning of Houses, Flats, Hospitals, Offices, Water tanks, Vehicle...etc. •The average monthly turnover is Rs.30,000/- 	<ul style="list-style-type: none"> •Facilitate the group in setting separate office space. •Help the group in buying a vehicle for transportation. •Market tie-ups & customer base •Adding more equipment like automatic water tank cleaner, pest control and allergy proofing machine like hand held steam cleaner. •Hand-hold Training on advanced cleaning techniques, general management and cost cutting measures
2	Anaswara Poultry Unit	Hitech poultry cages of two with a capacity of 45 chickens for each cage.	<ul style="list-style-type: none"> •Group consists of 7 members and having two cages and 90 birds. •Each member gets revenue of Rs.4,000/- month which will be doubled in coming month as the new birds will start giving eggs. 	<ul style="list-style-type: none"> • Sales Tax Registration of the unit to sell eggs to city counters. • Modification in cage, by dividing it into four cabins. • Service of a Veterinary doctor for training & consultancy to the unit • Linking sales to other units such as Harbour Cafe, Vegetable Selling Unit etc.

7	Prime Events	Event Management & Marketing Team	<ul style="list-style-type: none"> • CSR subsidy amount has been provided. 	<ul style="list-style-type: none"> • This group is having sales flair, therefore should be utilized for coordinating other groups. • They can work for arranging sales points for many groups, organize small fairs, help the groups in sales & marketing. • Identifying public or private places for setting up street vending kiosks. • Helping the Harbour Cafe to improve sales by promoting the unit to nearby offices & business establishments using good collaterals. • Helping the vegetable group to procure vegetables & setting it to city counters. • Selling poultry & other products to city counters. • Helps taking data on a daily basis and reporting to AF.

b. CASE STUDIES OF LIVELIHOOD GROUP

i. Eco Shop – poison free organic vegetable shop

Eco Shop unit, one more livelihood group started their business under CSR at Vizhinjam on 26th June 2018 during the compliance period.

Brief of Eco Shop unit – Vizhinjam

A group of seven women farmers trained by Adani Foundation under the CSR project started an Eco-shop Unit at Mullumukku junction near Vizhinjam in association with Vizhinjam Agri Bhavan on 26th June 2018. The shop started with a clear objective of providing poison free vegetables to local residents. This is a maiden attempt of the agri-produce-marketing society formed by women. The livelihood training of Adani Foundation fostered the women groups to start collecting bio-products directly from farmers and selling to the public

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

through this unit. The group is now planning to promote agriculture related services like door-to-door delivery of cut-vegetables and kitchen garden too.

The group was started as **Karshika Karma Sena** and has undergone intensive five day livelihood training provided by Adani Foundation. To understand more about agriculture and agriculture Products, the group attended the ASDC Skill development course on organic farming conducted jointly by Adani Foundation and IL&FS. Smt. Prasannakumari and Smt. Nisha Shaji are the president and secretary of the group wherein Smt. Udhayarani, Smt. Nisha, Smt. Sunithakumari, Smt. Shylaja and Smt. Priya are members of the group. All these seven member of the group are from Below Poverty Line looking for a livelihood opportunity, which added their ownership and commitment to start the unit.

The groups had regular meetings at Adani Livelihood Hatching Centre, where the members have come regularly and brainstormed on starting a livelihood unit. Finally the group decided to start an Eco shop unit selling organic vegetables and food items prepared by the people in and around the community. Under the guidance of CSR team, the group conducted several meetings with the Agri. Department. The continuous intervention and meetings with the Agriculture officials ensured the necessary hand-hold support to the group. The Agri-department provided a Agri-Sale

adani™	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

Counter at a subsidized rate of Rs.2000/- per month to the group. Agri. Dept. further agreed to provide agricultural equipment free of cost and support in developing eco-friendly grow bags, tie-up with the local farmers and horticulture for the availability of organic vegetables. At present the group makes a sale of Rs.4000/- per day, which can be multiplied shortly, as the demand for locally made fresh vegetable is very high compared to the supply. Adani Foundation has agreed to provide a subsidy of 25% of the project cost and also facilitate in getting another 25% from VISL and 40% as the bank loan in addition to the 10% beneficiary contribution. The unit is targeting to accomplish the envisaged twin objectives of starting a direct marketing of locally produced vegetables and thereby getting reasonable price to the farmers and secondly to set-up indigenous group with modern equipment's for promoting local agri-farming.

ii. Stitching cum bakery unit.

A livelihood group on stitching cum bakery unit was started at Kottappuram, Vizhinjam on 1st June 2018 by Ms. Mini Jose, from Kottappuram ward. She was one of the participants of AF livelihood training and ASDC skill course. The unit consists of a stitching centre and a bakery unit. The shop manages to get a daily turnover of Rs.3,000, further proposal is under process for expanding the group to increase their sales.

iii. Data Plus Services

The inauguration of Data Plus – a new livelihood group for digital services is planned during October 2018. The group consists of 3 women from Kottappuram ward, who have high aspirations towards their life, all of them had undergone Tally – Skill courses under ASDC and are also trained

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

under the management modules under the CSR Livelihood programme. They have developed a calendar and strategical plan for their shop by getting business from various stakeholders. The group had a future plan to expand their business.

3.3 SKILL DEVELOPMENT PROGRAMME

Skilling youth and making them employable is one of the priorities under the CSR initiatives of Vizhinjam. During the compliance period following programme were conducted under Skill Development.

- Digital Literacy Programme
- Employability Skill Courses

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

a. Digital Literacy Programme

Digital literacy is a new initiative under skill development programme of ASDC. It is planned to target 1200 public this year under digital literacy at Vizhinjam under the CSR of AF. It would be 30 – 50 hour module covering the topics on computer and computer parts, typing, practice on typing, software, desktop settings, paint, MS word, MS excel, MS power point, internet and e-commerce, payment banking and its importance etc.

A team of 25 community resource persons selected from the 35 candidates have been trained on Digital literacy. Training of Trainers (ToT) for Community resource Persons held from 19.06.2018 & 20.06.2018.

The programme envisages producing clear information through writing and other forms of communication on various digital platforms to the public. Digital Literacy also equips people to use e-platforms with focus on payment banking, e-commerce and e-marketing including social media. The Digital literacy Programme has got a wide reach and has started 9 batches in different venues, it is decided to execute the programme in association with TSSS, Local NGO's and residence association.

4 COMMUNITY INFRASTRUCTURE DEVELOPMENT

Urban Infrastructure Development is another important visible activity undertaken under the CSR of Adani Foundation. 7 infrastructure projects are at various stages of completion during the compliance period under the CSR of Adani Foundation at Vizhinjam.

4.1 COMPLETION OF TWO STORIED BUILDING AT HALP SCHOOL

The construction of a two storied building for HALP School under the CSR of Adani Foundation was completed in 8 months' time by end of June, 2018. The formal inauguration of the building was held on 18th July 2018 by **Smt. J Mercy Kutty Amma**, Hon'ble Minister for Fisheries and Harbour, **Sri. Ramachandran Kadannappally**, Hon'ble Minister for Port, Museums and Archaeology, also Hon'ble **Mayor Adv. V K Prasanth** inaugurated the newly setup computer lab at HALP School. The MLA of Kovalam Adv. M Vincent handed over the key to school H.M and also distributed the merit scholarship to meritorious students.

Harbor Area Lower Primary School (HALPS) is one of the oldest LP schools at Vizhinjam having more than 400 students studying from the fishing community. The school was having two main buildings, of which one is a double storied building and other is a single storied. The double storied building has been closed as it is found with cracks, certified in danger situation.

4.2 TWO STORIED BUILDING AT MULLOOR UP SCHOOL

The construction of two storied building at Mulloor UP School is under progress as per the schedule. Presently the shade work is completed and

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

block masonry work is ongoing. The project cost for the building is 1.25 crores. The entire work may be completed by end of January 2019.

Mullor school is one of the oldest schools established in the year 1888. It is the only Upper Primary School within five wards of CSR intervention. The work for renovation of building has been undertaken based on the request from Harbor Engineering Department of GoK, SMC of Mullor school, Ward councilor, school authorities and education department.

4.3 AYYANKALI SCHOOL TOILETS

AVPPL-AF under CSR constructed urinals and toilets at Ayyankali School, Venganoor. The work was done based on the request from local MLA, Ward Councillor and the SMC of Ayyankali Smaraka Upper Primary (UP)-School for providing separate toilet block for boys and girls under CSR. The school is having classes from Pre-KG to 7th standard. It is managed by Kerala Pulayar Maha Sabha (KPMS), one of the marginalized sections of society under the category of Scheduled Caste. Presently, the school is having strength of 173 children. It includes 88 girl students, 85 boy's students and eight lady teachers. The school has only two toilets for girl students, one urinal for Pre-KG girl students and a toilet for teachers. Even, the present conditions of existing toilets were pathetic. Hence, the request for supporting toilet facilities for Ayyankali school has been considered under the CSR.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport CSR Activities by Adani Vizhinjam Port Private Limited		

4.4 KOTTAPPURAM PLAY GROUND

The construction of playground at Kottappuram St. Mary's School is almost completed. The ground has been developed to play foot-ball, basketball, volleyball and athletic events. This ground has been developed based on the request from the Kottappuram School and from the local youth understanding the affinity of coastal community for sports, especially Football, Cricket and Volley ball.

4.5 COMMUNITY TOILET AT KOTTAPPURAM

The construction of public toilet at Kottappuram has been completed. Setting up of separate septic tank is under progress. This has been constructed at Ozavila colony at Kottappuram ward. An old community toilet which is totally dilapidated was present earlier. There was a request from Ward Councilor and the local community to construct a new toilet block. This colony is having 200 families, where about 75 families are not having toilet facilities due to lack of space in their premises. Open defecation is prevalent in this area, where the women from the families are the worst sufferers. Hence the request has been considered under the CSR of AVPPL - AF. The construction of public toilet at Thulavila, started on 14th March 2018.

4.6 PUBLIC BATHING FACILITY AT KARIMPALLIKKARA

The work for construction of bathing facilities and renovation of pond at Karimpallikkara is completed. Karimpallikkara is a fishermen colony in the ward of Kottappuram close to Adani Vizhinjam Port. There are close to 345 houses near to this pond, wherein almost 150 families depend on this pond. Adani Foundation started renovation of this pond based on the request from the community. The work included five bathing facility for women, one bathing facility for gents, repair work, compound wall, metal sheet separator for man and women, nalas for free flow of water to drains.

4.7 NEW CONSTRUCTION PROJECTS UNDER Consideration

Sl. No.	Project	
1	Drainage facilities at Kottappuram, Vizhinjam and Mulloor. 5 OTHERS

5.1 Local Employment

A total of 190 Keralite including 107 localities are engaged in different construction activities. This has been ensured by conducting regular meeting of contractors every 15 days for tracking the employment status of local people. Localities are engaged in different sections like construction, helpers, security, office assistant and even in supervisory cadres.

5.2 Employee Volunteering Programme (EVP)

AVPPL-AF felicitated the Employee Volunteers and Community Volunteers for their valuable contribution during the flood relief work in Kerala. Shri. Rajesh Jha, CEO AVPPL inaugurated the programme on 29th September 2018 at Animation Hall, Kovalam. The other dignitaries of the programme were Shri. Vinay Singhal, Project Director HOWE and Shri. Sushil Nair Head Corporate Affairs. Certificate of appreciation, medals and T-shirts were given to the Employee Volunteers and Community Volunteers who have participated in the Flood Relief works during the period 21st August 2018 to 1st September 2018. The Employee Volunteers included the members from HOWE - dredging team, safety and HR; AVPPL- Corporate Affairs, Environment, Security and Finance, AF- CSR, Suposhan, MHCUC, Livelihood group members, Smash Cleaning Company and the Community Volunteers. The team consist of a total of 86 volunteers with 33 Employee Volunteers and 53 Community Volunteers. The volunteers supported following activities during flood relief.

- Packed 1500 relief kits on 20th August 2018 containing rice, clothes, sanitary items and food items to distribute in flood affected areas.
- Distributed relief kits in remote areas and tribal belts of Konni Taluk in Pathanamthitta district on 21st and 22nd August 2018.

5.3 Film on CSR

To portray CSR initiatives a film on CSR-Vizhinjam has been shot. It included major CSR activities conducted in the areas of Education, Community Health, Sustainable Livelihood Development and Infrastructure development under the guidance and support of AF-HO. The film is shown during different community meetings, community engagement programmes and in social media.

5.3 Distribution of Life Saving Jackets to Fishing Community

The cyclone Ockhi that hit the coastal belt of Kerala on 29th November 2017 has taken many lives. The impact was more in Kottappuram and Vizhinjam which are the two adjacent wards of Adani Vizhinjam Port. The official report released by end of January 2018 says that Ockhi has taken the life of 50 people in Kerala; among those 14 cases were from Vizhinjam and Kottappuram wards alone. Adani Foundation provided immediate relief and response measures including 50000 purified bottled drinking water and 40,000 food packets during the ten days of rescue operations. A team of 30 CSR Volunteers and Adani Mobile Health Care Unit were also joined with the relief and rescue operations. Adani group has provided Rs.2.5 crores to Government of Kerala to distribute among families whose near and dear ones are lost during the cyclone. Continuous counselling and psycho-social support that the CSR team provided has made the victims and affected families to understand the reality and built confidence to come out of stress.

However, the rescued fishermen shared that lifesaving jacket is much needed for ensuring their safety. If they were having life jackets at the time of Ockhi, then many of the deceased could have been saved. Considering the genuine request as a measure to ensure the safety of Fishermen, AVPPL-AF under CSR decided to provide 1000 lifesaving jackets to the Fishing Community. The formal distribution function was held on 26th July 2018, inaugurated by Shri. Ramachandran Kadannappally,

Hon'ble Minister for Ports, presided over by Adv. V.K. Prasanth, Hon'ble Mayor, Thiruvananthapuram Corporation. Having "life jackets" is one of the important requirements of our fishing community to ensure their safety said the Minister. The Minister applauded the efforts of Adani Foundation on its CSR activities to support the graving community and he specially mentioned the need to have a common platform of Government, Local authorities, Corporates like Adani and the community at large to respond such emergency situations. Adv. V K Prasanth, Hon. Mayor, Trivandrum Municipal Corporation wholeheartedly welcomed the efforts of Adani Foundation on its CSR activities and the initiatives taken with Trivandrum Corporation on cleanliness.

5.4 Flood Relief Activities – Sep 2018

Adani Foundation has committed INR 50 crore to the Kerala Chief Minister's Distress Relief Fund, to aid the state in its herculean task of reconstruction and rehabilitation followed by the devastating flood. The first instalment of

Rs.25 crores was handed over to the Chief Minister on 23rd August 2018. Also the Group employees have pledged a day's salary to express solidarity with the state's distressed people.

Distributed Relief kits to 1500 flood affected people in Ranni Taluk of Pathanamthitta. The villages intervened in specific are Kokkathode, Mundanplavu, Nellikkampara and Kottampara Kurisadi Junction in Aruvapulam Panchayath; Thekkemala, Vanchipramala, Catholic church

and St.George Orthodox church in Mallappuzhasseri Panchayat, Mangaram and Maroor villages in Konni. Each relief kit contained rice, rice flakes, biscuits, bath soap, wash soap, toothpaste, toothbrush,

candles, matchbox, lungi, nightclothes and cloth bags.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018

	ensured to the rest of Kerala and other Indian Peninsula Ports	project and this will be fully materialised once all phases of the project are implemented.
21	Waste Management, Water Treatment plants, etc. will be part of an operational EMP	Noted for Compliance
22	Shoreline monitoring on 15 km both sides on regular basis during construction and operation as suggested in EIA report will be carried out	Being Complied Refer point No. 7
23	VISL will ensure that appropriate dredging and reclamation methodology as suggested in EIA report will be adopted to contain the turbidity within applicable limits.	Being complied No dredging and reclamation work was carried out during the compliance period. 3 Continuous turbidity monitoring station are installed to measure turbidity on real time basis. Turbidity results are comparable with baseline.
24	Appropriate measures relating to maintenance of health, hygiene, safety and security will be implemented as per EIA report	Being complied Appropriate institutional mechanism for maintenance of health, hygiene, safety, security has been put in place. An officer of VISL has been designated as Head (EHS & CSR) for effective implementation of the stipulated EHS safeguards & CSR activities. AVPPL, the concessionaire executing the project has also appointed officers for EHS & CSR, Horticulture. In addition to the above, independent environment, health and safety consultants have been appointed as required in the concession agreement signed with AVPPL. It is also ensured that contractors working at site also deploy EHS professional to implement suggested EMP measures. Proper provisions for maintenance of health, hygiene, safety, security for workforce in labour colony has also been provided/ ensured. Please refer Annexure XI .
25	VISL will ensure that livelihood	Being Complied

Sl. No.	Responses/Commitments	Status as on 30.09.2018
	issues of Mussel collectors are addressed as per the EIA report	Till date 271 Mussel collectors have been compensated for Livelihood loss expending an amount of 12.65 crores. Although they were offered alternate livelihood plan through cage fishing they opted for one time settlement siting the risks involved in such fishing.
26	VISL will ensure all the project components i.e., including road/rail connectivity are implemented in time. In addition the planned CSR and EMP measures will also be implemented and monitored to ensure the socio-economic development of the region.	Being complied Road construction is stopped due to local protest, rail corridor work is yet to start. Status of construction stage EMP in matrix format is enclosed as Annexure VII . CSR activities are detailed in Annexure IV .
27	The implementation of the EMP/RAP/CSR will be ensured through the institutional and regulatory mechanism with regular monitoring and periodic compliance reports to the MoEF	Being complied Refer point 24 above. Regular monitoring of Environment Parameters is being carried out. Six monthly compliance reports are submitted to all concerned regulatory authorities.
28	Special care will be taken to minimise the tree felling in the backup area and to plan the development in tune with the topography.	Being complied Being complied to the extent possible, but in line with the technical requirements of the project. Due permission is taken for the same from concerned department (Forest Department). For carrying out compensatory afforestation in lieu of the trees felled, forest department has identified an area of 12 Ha. of land for AVPPL in Sainik School, Trivandrum. The afforestation activities are completed by the forest department for AVPPL.
29	The livelihood restoration measures for fishermen affected during construction phase as reported in the EIA has to be implemented	Being complied Refer point No. 1 and point No. 25
30	Dredging materials will be used for reclaiming (filling) the sea and additional materials are not	Being complied No dredging is carried out during the compliance period; the dredged material

	required	till 30 th September 2018 amounting to 2.26Milm ³ has been utilized for reclamation of 30 Ha area. The dredged material has been used for reclamation only.
31	The number of fishermen who will be temporarily affected in the Adimalathura stretch have been assessed and livelihood restoration measures have been framed for the construction period	Being complied Earlier it was proposed that the fishermen at Adimalathura will be compensated for the construction period of three years, treating them as temporarily affected. However based on the request of the fishermen (stating that demarcation of the shipping channel and movement of ships would affect them permanently) their compensation has been enhanced considering seven years of livelihood loss. The GoK order to this effect has been issued on 31 st May 2018 and compensation has been disbursed to 580 eligible fishermen. Verification of the document of balance fishermen is in progress.
32	There will be no erosion on the shoreline on account of dredging the deep sea at (-) 18m to (-) 20m	Being complied Year round status of the shoreline is being mapped for a stretch of 40km a (Last Six month Monitoring Report is attached as Annexure II). The Shoreline Modelling Report based on shoreline data from February 2015 to February 2017 was submitted with compliance report (April 17 to September 17). 2 nd Shoreline modelling report based on monitoring data collected for the period March 2017 – February 18 prepared by LnTIEL and vetted by NIOT is attached as Annexure III . The mathematical modelling report has affirmed that the shoreline change is in line to the prediction done as part of the EIA report
33	An Area Development Plan (ADP) is being prepared by CEPT University (Ahmedabad) for planned	Being complied VISL in coordination with town planning department, Tourism department and

		agency identified for the work.
38	As per the Entitlement Framework, Hardship Allowance is suggested in the EIA/EMP for resort workers who lost their job due to acquisition of the resort	Complied Compensation for livelihood loss; Rs 6.08 Crores out of allocated 6.11 Crores has been disbursed to 211 out of 211 number of resort workers and settled completely.
39	During the construction period of three years livelihood assistance to the shore seine fisherman in the 2km ship channel foot print beach has been suggested although they can move further southward and continue with their activity.	Will be complied Refer point No. 31.
40	Ensure that all EMP related aspects are properly implemented during construction and operational phase	Being complied As the project is in construction stage, construction stage EMP is being implemented. Operation stage EMP will be implemented during operation stage. Refer Annexure VII for status of Construction stage EMP.
41	A dedicated port road directly connecting to NH-47 bypass is envisaged.	Being complied This is part of the concession agreement signed with AVPPL.
42	Rail connectivity is proposed along the outer side of the stream running parallel to the harbour road and that too on elevated structures without affecting the entry to the fishing harbour	Will be complied The Konkan Railway Corporation has been engaged as consultant for turnkey execution of the project. The option of tunnel is being looked into to minimize the disturbance. Draft Detailed Project Report (DPR) has been completed and submitted to VISL for review.
43	The port project will not affect the inflow of Neyyar river and AVM canal	Noted for compliance This is a fact, since both are away from the project site
44	The port road will be access controlled for the exclusive use of container and related port movements. The suggestion for a new approach road can be considered on technical feasibility and subject to surrendering of adequate land by the beneficiaries	Will be complied Scope of providing connectivity for the local residents to the nearest Vizhinjam-Poovar road will be considered subject to surrendering of adequate land by the beneficiaries

	safety norms and operational requirements.	
52	The existing notification of the Vizhinjam Port includes the Vizhinjam Fishing harbour. The revised Notification will include the Vizhinjam Deep Water Port based on revised Port limit provided in the EIA report. Except inside the breakwater of the Deep Water Port in all other areas of the port limit fishing is allowed with all safety and operational restrictions.	Will be complied Revised port limits for (i) fishing harbour/minor port and (ii) Vizhinjam seaport will be notified. Restrictions on fishing will be as per the applicable laws.
53	There will only be a movement of 8 barges per day during the construction period of 3 years and the same will not be a hindrance for the fisherman to cross since this is far less than the number of ships being crossed by them daily in the international ship channel.	Will be complied Inconvenience, if any, to fishing will be monitored during the construction phase.
54	The maximum rate of accretion at southern side of the harbour will be 21.6 m/year in the 1 st year and by the end of tenth year it reduces to 0.5 m/year. The shoreline evolution along the south side of the port will get stabilized in the initial years. On stabilization, the maximum net increase in the shoreline accretion would be around 27m immediately south of the port which reduces to negligible levels within 2.3km alongshore. There will not be any impact on the shoreline along Poovar-Pozhiyar sector which is about 7km away from the proposed port.	Being complied Refer Point 32
55	The 8 resorts affected will be compensated in line with R&R package in place but subject to the advice of the KCZMA/MoEF	Being complied Refer point No. 19

Details of Labour Camp

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Details of Labour Camp.		

Annexure XI

Details of Labour Camp

Location of the Labour Camp

Currently at port two main contractors are working, both the labour contractors Ms/ AFCONS and M/s B&R have constructed labour camp for accommodation of workers at Mukkola-Vizhinjam, Kerala. The location of the camp is such that, Mukkola, the nearby small town is situated at walkable distance from the camp. Also, the surrounding greenery presents a comfortable environment to the inhabitants during all weather conditions.

Location of the labour camp of both contractors

Facilities inside the Camp

Welfare for the workmen

Workmen are provided with concrete floor, beds and cots. Adequate lighting and ventilation is ensured in each room. Workmen in the colony are provided with potable RO drinking water. The drinking water tanks are cleaned at frequent intervals and water is tested once in a quarter through authorized laboratory. Individual kitchen is provided by both the contractors. Cooking gas is provided by both the contractors for their workers in kitchen and a separate dining room is also made available near to the kitchen. Adequate number of toilets, bathing and cloth washing facility is also ensured at the camp of both AFCONS and B&R. Also STP of adequate capacity has

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Details of Labour Camp.		

been installed by both the contractors at their labour camps and the treated water is being used for sprinkling at the port site.

	
Living Blocks of Workmen at labour camp of M/s AFCONS	RO plant for drinking water at M/s AFCONS
	
Living Block of Workmen at labour camp of M/s B&R	Drinking water at labour camp of M/s B&R
	
Cooking gas provided in the kitchen of M/s B&R	Apron provided in the kitchen of M/s AFCONS

Toilet and washing facility at labour camp of M/s AFCONS

Toilet and washing facility at labour camp of M/s B&R

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Details of Labour Camp.		

Housekeeping arrangement

Dedicated cleaning staff is deployed for daily housekeeping in both the camps. Brooming around the camp premises, collection of waste in colour coded dust bins, daily disposal of collected food waste etc. are ensured during housekeeping. Bleaching powder is sprinkled around the camp premises as and when required. The waste water from kitchen, bathroom and washing facilities are transferred through closed conduits to the STP for treatment, treated water is being used for sprinkling within the port premises.

	
Dust bins provided at labour camp of M/s B&R	COLOUR CODED DUST BINS INSIDE THE CAMP of M/s AFCONS

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Details of Labour Camp.		

Health, Safety and Environment Management

Adequate numbers of dust bins are kept inside the camp premises of both the contractors for collection and segregation of waste. Information posters / signage's are displayed throughout the camp regarding health, hygiene, first aid, safety, environment etc. by both the contractors. Weekly inspection of labour camps by EHS team of both the contractors is conducted. The posters are displayed in different languages for understanding of workmen from diverse locations. For mosquito control, chemical spraying and fogging is done. Adequate fire extinguishers are provided around the camps, giving due consideration while placing them near to the kitchen and diesel generator. First aid box is readily available inside the camps. The camps in charge are trained for first aid as well as to ensure security and welfare of workmen. In addition, the camps of both the contractors are surrounded by fencing with single entry gate controlled by security guard at all times to prevent entry of intruders and stray animals. Health camp is also organized for the workers periodically.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Details of Labour Camp.		

Gardening inside the Camp

The soil inside both the camp premises is naturally rich in nutrients. Gardening and farming is done inside the camps with the help of workmen as part of green initiative. Banana tree, tapioca, chilly, pumpkin etc. are so far planted and growing healthy. The flowering plants are also grown in the premise which adds to aesthetic and beauty of camp.

Gardening inside the camp of M/s AFCONS

Gardening inside the camp of M/s B&R

CHAPTER 1

Introduction

Ashwamedh Engineers and Consultants was established in May 1986. The company is engaged in providing Environmental pollution testing, Food and agriculture testing and Consultancy Services. Our affiliates are established all over India and overseas. Ashwamedh has steadily achieved growth up to such an extent that, it has become India's foremost analytical laboratory with several branch offices. The well-equipped laboratory and office set up of about 28000 sq. ft. is at Nashik, Maharashtra. The strength of our organization is the years of hard work, dedication and contribution made by our staffs who are experts in their respective fields and they produce innovative ideas for the growth of the organization.

Ashwamedh has made itself capable of testing of water, waste water, air, food, noise monitoring, hazardous and non-hazardous waste testing, fuel and agriculture testing. We have a state-of-art Laboratory set-up for Chemical, Mechanical and Microbiological Analysis at Nashik. Our Laboratory is accredited by NABL in accordance with ISO/IEC 17025:2005 in the Chemical, Biological and Mechanical Testing fields (Certificate numbers: T-5509). Our Laboratory is recognized by the Ministry of Environment, Forests & Climate Change, Govt. of India, New Delhi under Environment (Protection) Act, 1986. We are also ISO 9001:2015, ISO 14001:2015 and OHSAS 18001:2007 certified organization.

Our Laboratory is recognized by Bureau of Indian Standard for Packaged Drinking Water and Packaged Natural Mineral Water also recognised by APEDA. Our laboratory is approved by Food Safety & Standards Authority of India (FSSAI) for food testing also approved by AGMARK and State Agriculture Department.

Ashwamedh Engineers and Consultants (AEC) was engaged by Adani Vizhinjam Port Pvt. Ltd. (AVPPL) for the Post EIA Environmental Monitoring as per Environmental Monitoring Plan mentioned in EIA and EC. AVPPL issued service order no. 5700182233 dated: 31.05.2016. SO mentions the matrix, parameters and frequency of environmental monitoring. AEC carried out said environmental monitoring strictly as per above mention service order.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

AEC is also submitting monthly consolidated report of Environmental Monitoring which includes details of sampling locations, methodology used, analytical results and summary of reports. The monthly environmental monitoring report serves the information about the present environmental status as per terms and condition mentioned in service order.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

CHAPTER 2

Quality Assurance /Quality Control Procedure

The quality assurance and quality control plan include following elements:

1. Sample collection, preservation and transportation of sample
2. Chain of custody
3. Laboratory Analysis
4. Data evaluation and validation

1. Sample collection, preservation and transportation of sample:

The Team leader ensures that selected members of the study team meet all the selection criteria identified. Prior to the starting of the study, individual team members were put to test in the laboratory for their competency in carrying out typical environmental sampling/monitoring for different parameters as per the requirements of the project.

The team leader has ensured that the selected procedures are documented and the study team members are familiar with the sampling and analytical procedures. Before commencement of work, the team leader has checked for availability of all the items required for sampling at site and in the laboratory. In case of any missing items, suitable alternate arrangements have been made and required materials were procured.

Precautions are taken to protect the samples, the material being sampled, the sampling instruments and containers for samples from contamination. Samples are sufficient in volume and frequency is decided based on scope of work. Samples are collected, packed and transported prior to analysis in a manner that safeguards against change in the particular constituents or properties to be examined.

For the collection of samples appropriate containers are used with respective sample matrix and parameters analysed as per the method reference.

Labelling of samples is done at site only and it includes the name of location, date of sample collection. Sampling sheet is filled at site with required information. The sample is sent along with the sampling sheet to laboratory for further analysis.

For the preservation of sample appropriate preservation techniques w.r.t. parameters analysed is followed and samples are transported with due care to laboratory.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

2. Chain of Custody:

After receiving the samples in the laboratory, first Assigning Sample ID is a very systematic and methodical way of representing samples identification as Sample ID is a Permanent Identification Number of a sample and it maintains traceability and transparency throughout the process.

It is the format for communication between Sample Receipt Department and the Laboratory. Laboratory also communicates to the Sample Receipt Department. It gives all details of sample except its company name. It includes parameters to be analysed, method reference for each parameter analysed, units in which the analytical results to be expressed, results of each parameter analysed, date at which the analysis was started and date at which the analysis got completed.

After completion of analysis, analytical values duly filled in by respective analyst with the help of test data in respective report format. This draft report is verified and approved by Technical Manager. Final reports are prepared and authorised by Technical Manager and sent to client.

3. Laboratory Analysis:

As per the scope of work, all physiochemical and biological analysis carried out at our permanent facility at Nashik, Maharashtra. For the sampling and analysis of samples standard reference methods are used.

4. Data evaluation and validation:

For the quality control and validation laboratory follow the following procedures:

1. Participation in Inter-Laboratory Comparison (ILC) with NABL accredited laboratories.
2. The results obtained from all laboratories are recorded and reviewed for performance by Quality Manager and acceptance criteria is satisfactory ≤ 2 .
3. The laboratory also participates in Proficiency testing (PT) programmes conducted by NABL/CPCB/other Proficiency testing (PT) providers depending on the availability of the programme.
4. The results received from nodal laboratory are recorded and reviewed for performance.
5. Replicate testing is done on received samples in a planned manner as per schedule. Replicate testing is done by same/different analysts or using same/different methods.
6. Reviewing the results of replicate testing for performance evaluation is done by Quality Manager.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

7. Acceptance criteria in case of replicate/duplicate testing is $\leq 20\%$ relative standard deviation.
8. Testing of retained samples is carried out, by allotting a new sample ID and sending it to laboratory for retesting done by same/different analyst or using same/different methods.
9. Reviewing the results of retesting for performance evaluation is done by Quality Manager.
10. Acceptance criteria in case of retesting is $\leq 20\%$ relative standard deviation.
11. Correlation of results for different characteristics like TDS/EC ratio. Anion/cation balance, COD/BOD correlation is carried out.
12. The quality control data is analysed and where they are found to be outside predefined criteria, planned action is taken to correct the problem and to prevent incorrect results from being reported.

Table 2.1 Check list format for sampling

Item	Yes or No	If No, reason and Justification for acceptance
Was the sampling point correctly located?	Yes	
Permanent facility available?	Yes	
Was the correct sample used?	Yes	
Were the proper types of sample containers used?	Yes	
Were the replicates or multiple samples taken as required?	Yes	
Were adequate quantities of samples taken?	Yes	
Were the sample containers properly labelled?	Yes	
Were the preservatives added and sample containers sealed as required?	Yes	
Were the sealed sample containers maintained at required storage condition?	Yes	
Checked by: Team In-charge	Yes	

Note: It is not necessary that this form be filled each sample/sampling point. It is sufficient if the deviations if any are recorded in the log books.

Table 2.2 Check list for sample Integrity

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

Item	Yes or No	If No, reason and Justification for acceptance
Is the chain of custody record attached?	Yes	
Is the chain of custody record filled in properly	Yes	
Is the sample received within the holding time?	Yes	
Is the sample seal on sample containers intact?	Yes	
Is the sample received in proper storage condition?	Yes	
Is the sample quantity adequate for required analysis?	Yes	
Checked By: Team In - charge		

Note: It is not necessary that this form be filled each sample/sampling point. It is sufficient if the deviations if any are recorded in the log books.

Table 2.3 Check list format for analysis

Item	Yes or No	If No, reason and Justification for acceptance
Was the correct method used for the analysis?	Yes	
Were the correct instruments, equipment and apparatus used for the analysis?	Yes	
Was the competence of the analyst deployed for the analysis verified?	Yes	
Were the instruments, equipment and apparatus used pre-calibrated as required?	Yes	
Was the sample correctly and adequately identified and described in the analysis logbook?	Yes	
Were all the raw data properly recorded?	Yes	
Were the correct equations and units used?	Yes	
Checked By: Lab Manager		

Note: It is not necessary that this form be filled each sample/sampling point. It is sufficient if the deviations if any are recorded in the log books.

Table 2.4 Check list format for quality check in the field

Parameters	Comments (Yes/No)	Remarks
Sample bottle labelled?	Yes	
Sample container rinsed with D.D. water?	Yes	
Field equipment blanks are identified	Yes

CHAPTER 3

Ambient Air Quality Monitoring

1. Ambient Air Quality Monitoring location details:

This chapter describes the sampling location, methodology adopted for monitoring ambient air quality and analysis of Ambient Air Quality results. The prime objective of the environment monitoring with respect to ambient air quality is to establish the present air quality and its conformity to ambient air quality standards. Ambient Air quality monitoring was carried out at five locations including Venganoor, Proposed Port Estate Area, Port Site, Chani and Balaramapuram during April 2018 to September 2018.

Table 3.1 Ambient Air Quality Monitoring Locations

Sr. No.	Location	Latitude	Longitude
1.	Venganoor	8 ⁰ ,23',55.10" N	77 ⁰ ,00',11.30" E
2.	Proposed Port Estate Area	8 ⁰ ,22',41.47" N	77 ⁰ ,01',02.94" E
3.	Port Site	8 ⁰ ,22',06.03" N	77 ⁰ ,00',17.03" E
4.	Chani	8 ⁰ ,20',56.86" N	77 ⁰ ,03',16.19" E
5.	Balaramapuram	8 ⁰ ,25',37.60" N	77 ⁰ ,02',43.80" E

Table 3.2 Ambient Air Quality Monitoring Methodology

Sr. No.	Parameter	Unit	Detection Limit	Method Reference
1.	Particulate Matter (size less than 10 µm) or PM ₁₀	µg/m ³	2	CPCB Guidelines, Volume I,36/2012-13, Page no.11 WI/SAP-AA/5/1, Issue no.: 03 Issue date: 01.04.2014 (Gravimetric Method)
2.	Particulate Matter (size less than 2.5 µm) or PM _{2.5}	µg/m ³	0.4	CPCB Guidelines, Volume I,36/2012-13, Page no. 15 and Instrument Manufacturer Operating Manual WI/SAP-AA/5/1, Issue no.: 03 Issue date: 01.04.2014 (Gravimetric Method)
3.	Sulphur Dioxide (SO ₂)	µg/m ³	4.0	CPCB Guidelines, Volume I, 36/2012-13, Page no.1, WI/SAP-AA/5/2, Issue no.: 03 Issue date: 01.04.2014 (Improved West & Gaeke Method)
4.	Nitrogen Dioxide (NO ₂)	µg/m ³	3.0	CPCB Guidelines, Volume I, 36/2012-13, Page no.7, WI/SAP-AA/5/3, Issue no.: 03 Issue date: 01.04.2014 (Modified Jacob & Hochheiser Sodium Arsenite Method)
5.	Carbon Monoxide (CO)	mg/m ³	0.5	By portable CO meter
6.	Hydrocarbon (HC)	ppm	1.0	By portable HC meter

3. National Ambient Air Quality Standards:

Table 3.3 National Ambient Air Quality Standards Dated 16th November 2009

Sr. No.	Pollutant	Time Weighted Average	Concentration in Ambient Air	
			Industrial, Residential, Rural & other areas	Ecologically Sensitive Areas
1.	Sulphur dioxide (SO ₂), µg/m ³	Annual	50	20
		24 h	80	80
2.	Nitrogen Dioxide (NO ₂), µg/ m ³	Annual	40	30
		24 h	80	80
3.	Particulate matter (size less than 10µm) or PM ₁₀ , µg/ m ³	Annual	60	60
		24 h	100	100
4.	Particulate matter (size less than 2.5µm) or PM _{2.5} , µg/ m ³	Annual	40	40
		24 h	60	60
5.	Carbon Monoxide (CO), µg/m ³	8 h	02	02
		1 h	04	04
6.	Hydrocarbon (HC), ppm	-	-	-

4. Ambient Air Quality Monitoring Results for the period April 2018 to September 2018:

Table 3.4 - Location: Venganoor

Date	Parameters					
	PM ₁₀	PM _{2.5}	SO ₂	NO ₂	CO	HC

Figure 3.5 Nitrogen Dioxide (NO₂)

7. Summary - Ambient Air Quality

During the period April 2018 to September 2018, at the location **Venganoor**, the concentration of PM₁₀ was observed in the range between 26 - 84 µg/m³ with an average of 61.2 µg/m³, PM_{2.5} was observed in the range between 7 - 26 µg/m³ with an average of 17.0 µg/m³, SO₂ was observed in the range between 4.12 - 6.27 µg/m³ with an average of 5.04 µg/m³, NO₂ was observed in the range between 3.12 - 11.7 µg/m³ with an average of 5.88 µg/m³, CO and HC were observed below the detection limit for all six months.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

At the location **Proposed Port Colony**, concentration of PM₁₀ was observed in the range between 16 - 86 µg/m³ with an average of 60.3 µg/m³, PM_{2.5} was observed in the range between 4 - 30 µg/m³ with an average of 17.6 µg/m³, SO₂ was observed in the range between 4.51 - 6.71 µg/m³ with an average of 5.27 µg/m³, NO₂ was observed in the range between 3.69 - 8.83 µg/m³ with an average of 6.05 µg/m³, CO and HC were observed below the detection limit for all six months.

At the location **Port site**, concentration of PM₁₀ was observed in the range between 51 - 98 µg/m³ with an average of 79.2 µg/m³, PM_{2.5} was observed in the range between 13 - 39 µg/m³ with an average of 24.5 µg/m³, SO₂ was observed in the range between 4.22 - 6.43 µg/m³ with an average of 5.34 µg/m³, NO₂ was observed in the range between 3.77 - 14.6 µg/m³ with an average of 6.79 µg/m³, CO and HC were observed below the detection limit for all six months.

At the location **Chani**, concentration of PM₁₀ was observed in the range between 19 - 86 µg/m³ with an average of 61.8 µg/m³, PM_{2.5} was observed in the range between 5 - 28 µg/m³ with an average of 19.1 µg/m³, SO₂ was observed in the range between 4.10 - 6.28 µg/m³ with an average of 5.25 µg/m³, NO₂ was observed in the range between 3.32 - 9.52 µg/m³ with an average of 6.00 µg/m³, CO and HC were observed below the detection limit for all six months.

At the location **Balaramapuram**, concentration of PM₁₀ was observed in the range between 37 - 97 µg/m³ with an average of 69.5 µg/m³, PM_{2.5} was observed in the range between 10 - 31 µg/m³ with an average of 20.3 µg/m³, SO₂ was observed in the range between 4.12 - 6.57 µg/m³ with an average of 5.27 µg/m³, NO₂ was observed in the range between 3.56 - 11.5 µg/m³ with an average of 6.17 µg/m³, CO and HC were observed below the detection limit for all six months.

The obtained results were compared with National Ambient Air Quality Standards, 2009. The results were well within the limit on all monitoring days at all 5 locations.

CHAPTER 4

Ambient Noise Monitoring

1. Ambient Noise Monitoring location details

This chapter describes the sampling location, methodology adopted for monitoring ambient noise and analysis of monitored results. Ambient Noise Monitoring during April 2018 to September 2018 was carried out at Venganoor, Proposed Port Estate Area, Port Site, Chani and Balaramapuram. Classification of locations as per the Noise Pollution (Regulation & Control) Rules, 2000 (Rules 3 (1) and 4(1)) are as below:

Table 4.1: Ambient Noise Monitoring Stations details

Sr. No.	Location	Area Type	Latitude	Longitude
1.	Port Site	Industrial	8 ⁰ ,22',06.03" N	77 ⁰ ,00',17.03" E
2.	Balaramapuram	Commercial	8 ⁰ ,25',37.60" N	77 ⁰ ,02',43.80" E
3.	Proposed Port Estate Area	Residential	8 ⁰ ,22',41.47" N	77 ⁰ ,01',02.94" E
4.	Chani	Residential	8 ⁰ ,20',56.86" N	77 ⁰ ,03',16.19" E
5.	Venganoor	Residential	8 ⁰ ,23',55.10" N	77 ⁰ ,00',11.30" E

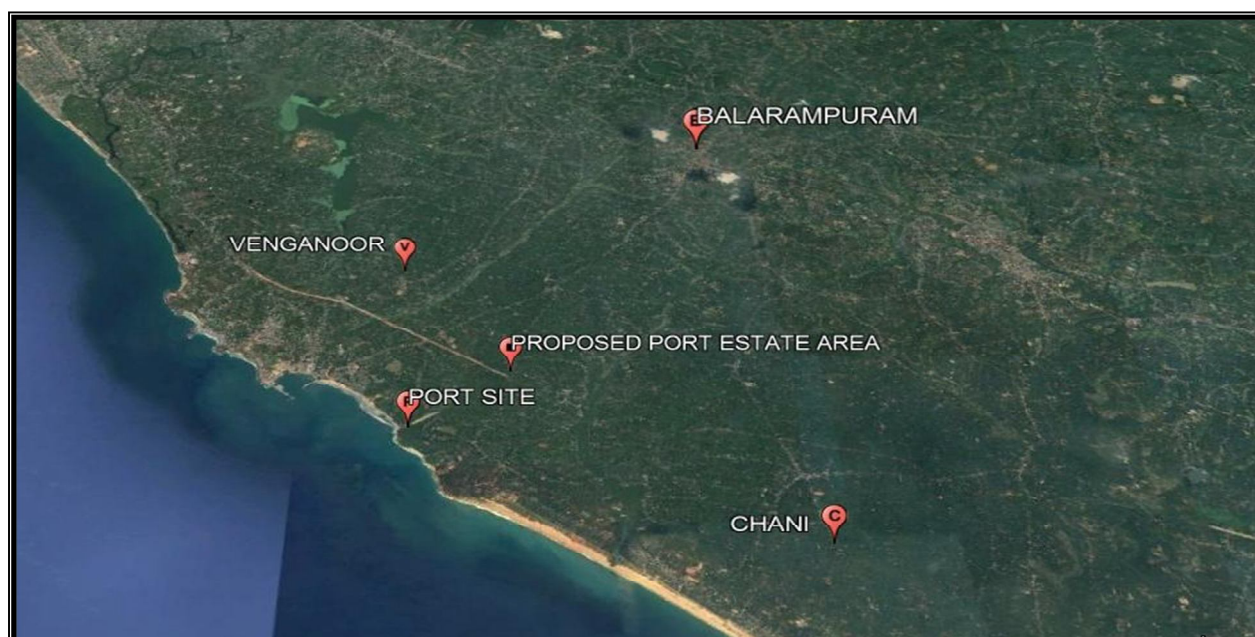

Figure 4.1 Google earth view of Ambient Noise Monitoring Stations

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

2. Methodology of Sampling

Ambient Noise Monitoring is being carried out as per IS 9876: 1981, CPCB Protocol for Ambient Level Noise Monitoring, July 2015 & Manufacturer Manual, WI/S/5/35 & 36, Issue No.3, Issue date 01.09.2016

3. Ambient Noise Standards

As per the Noise Pollution (Regulation & Control) Rules, 2000 (Rules 3 (1) and 4(1))

Table 4.2: Ambient Noise Standard

Area Code	Area Type	Limits in dB (A) Leq	
		Day (6 a.m. to 10 p.m.)	Night (10 p.m. to 6 a.m.)
A	Industrial	75	70
B	Commercial	65	55
C	Residential	55	45

4. Ambient Noise Monitoring Results for the period April 2018 to September 2018

7. Summary - Ambient Noise Monitoring

During the period April 2018 to September 2018, average noise level observed at residential areas i.e. at Proposed Port Estate Area, Chani and Venganoor during day time were 54.8 dBA, 54.3 dBA and 50.8 dBA respectively and during night time 44.2 dBA, 44.5 dBA and 41.3 dBA respectively.

At industrial area i.e. at Port Site area average noise level observed at day time 67.9 dBA and at night time 58.1 dBA.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

At commercial area i.e. Balaramapuram area average noise level observed at day time 59.9 dBA and at night time 50.9 dBA.

CHAPTER 5

Marine water and Sediment Analysis

1. Marine Water and Sediment Sampling location details:

This chapter describes the sampling location, methodology adopted for analysis and the analysis of monitored data for Marine Water and Sediment. Sampling and analysis of marine water at high tide and low tide during April 2018 to September 2018 carried out at different locations such as; Near Kovalam Beach, Proposed Dredge Material Disposal Site, South of Break Water, Port Basin, Inner Approach Channel and Kovalam Beach. During the month of July and August due to rough sea condition monitoring was not carried out. Classification of locations as per the Noise Pollution (Regulation & Control) Rules, 2000 (Rules 3 (1) and 4(1)) is as below:

Table 5.1 Marine Water and Sediment sampling locations details

Sr. No.	Location	Latitude	Longitude
1.	Near Kovalam Beach	8° ₀ ,22',28.20" N	76° ₀ ,58',48.70" E
2.	Proposed Dredge Material Disposal Site	8° ₀ ,21',54.40" N	76° ₀ ,59',27.90" E
3.	South of Break Water	8° ₀ ,22',03.20" N	76° ₀ ,59',46.50" E
4.	Port Basin	8° ₀ ,22',00.00" N	77° ₀ ,00',03.30" E
5.	Inner Approach Channel	8° ₀ ,21',05.90" N	77° ₀ ,00',40.70" E
6.	Kovalam Beach	8° ₀ ,23',03.61" N	76° ₀ ,58',37.62" E

6. Summary - Marine water analysis:

During the period April 2018 to September 2018, at the location **Near Kovalam Beach**, the low tide and high tide concentration of pH were observed in the range between 7.08 – 7.89, Dissolved oxygen was observed in the range between 4.90 - 5.40 mg/L, No visible colour or offensive odour observed, Floating materials were observed below the detection limit to <1. Faecal Coliforms were observed <1.8 /100 ml and Biochemical Oxygen Demand was observed in the range between 4.90 – 5.70 mg/L.

At the location **Proposed Dredge Material Disposal Site**, the low tide and high tide concentration of pH were observed in the range between 7.31 - 7.82, Dissolved oxygen was observed in the range between 5.00 - 5.50 mg/L, No visible colour or offensive odour observed, Floating materials were observed below detection limit to <1. Faecal Coliforms were observed <1.8 /100 ml and Biochemical Oxygen Demand was observed in the range between 5.30 – 6.30 mg/L.

At the location **South of Break Water**, the low tide and high tide concentration of pH were observed in the range between 7.35 - 7.95, Dissolved oxygen was observed in the range between 5.20 - 5.80 mg/L, No visible colour or offensive odour observed, Floating materials were observed below detection limit to <1. Faecal Coliforms were observed <1.8 /100ml and Biochemical Oxygen Demand was observed in the range between 5.60 – 6.60 mg/L.

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

At the location **Port Basin**, the low tide and high tide concentration of pH were observed in the range between 7.61 – 7.90, Dissolved oxygen was observed in the range between 5.00 – 5.50 mg/L, No visible colour or offensive odour observed, Floating materials were observed below detection limit to <1. Faecal Coliforms were observed <1.8 /100ml and Biochemical Oxygen Demand was observed in the range between 6.00 – 6.70 mg/L.

At the location **Inner Approach Channel**, the low tide and high tide concentration of pH were observed in the range between 7.34 – 7.90, Dissolved oxygen was observed in the range between 5.10 – 5.60 mg/L, No visible colour or offensive odour observed, Floating materials were observed below detection limit to <1. Faecal Coliforms was observed <1.8 /100ml and Biochemical Oxygen Demand was observed in the range between 5.90 – 6.70 mg/L.

At the location **Kovalam Beach**, the low tide and high tide concentration of pH were observed in the range between 7.32 – 7.90, Dissolved oxygen was observed in the range between 5.10 – 5.50 mg/L, No visible colour or offensive odour observed, Floating materials were observed below detection limit to <1. Faecal Coliforms was observed <1.8 /100ml and Biochemical Oxygen Demand was observed in the range between 4.80 – 5.20 mg/L.

9. Summary- Sediment Analysis:

During the period April 2018 to September 2018, At the location **Near Kovalam Beach**, the observed texture was clay and sandy, Organic matter was observed in the range between 4.99 – 7.80 %, Total Phosphorus (as P) was observed in the range between 21.0 – 36.0 mg/kg. Aluminium (as Al) was observed in the range between 630 - 860 mg/kg. Chromium (as Cr) was observed in the range between 9.40 – 25.3 mg/kg. Copper (as Cu) was observed in the range between 0.130 – 0.260 mg/kg. Iron (as Fe) was observed in the range between 2644 - 3763 mg/kg. Lead (as Pb) was observed in the range between 2.01 – 8.86 mg/kg. Manganese (as Mn) was observed in the range between 3.96 – 7.41 mg/kg. Mercury (as Hg) was observed below the detection limit. Zinc (as Zn) was observed in the range between 1.00 – 4.86 mg/kg. Nickel (as Ni) was observed in the range between below the detection limit to 4.46 mg/kg. Micro benthic organisms were observed in the range between 90400 – 96400 /m² and macro benthic organisms were observed in the range between 83100 – 96400 /m².

At the location **Proposed Dredge Material Disposal site**, the observed texture was clay and sandy, Organic matter was observed in the range between 5.24 – 16.2 %, Total Phosphorus (as P) was observed in the range between 15.4 – 52.6 mg/kg. Aluminium (as Al) was observed in the range between 410 - 618 mg/kg. Chromium (as Cr) was observed in the range between 6.50 – 18.2 mg/kg. Copper (as Cu) was observed in the range between 0.400 – 2.12 mg/kg. Iron (as Fe) was observed in the range between 1018 - 1290 mg/kg. Lead (as Pb) was observed in the range between 0.865 – 13.1 mg/kg. Manganese (as Mn) was observed in the range between 3.06 – 14.2 mg/kg. Mercury (as Hg) was observed below the detection limit. Zinc (as Zn) was observed in the range between below the detection limit to 5.18 mg/kg. Nickel (as Ni) was observed in the range between below the detection limit to 3.86 mg/kg. Micro benthic organisms were observed in the range between 11800 – 144000 /m² and macro benthic organisms were observed in the range between 91700 – 98100 /m².

At the location **South of break water**, the observed texture was clay and sandy, Organic matter was observed in the range between 1.37 – 10.1 %, Total Phosphorus (as P) was observed in the range between 13.5 – 31.4 mg/kg. Aluminium (as Al) was observed in the range between 176 - 448 mg/kg. Chromium (as Cr) was observed in the range between 10.4 – 20.3 mg/kg. Copper (as Cu) was observed in the range

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

between 0.041 – 0.210 mg/kg. Iron (as Fe) was observed in the range between 870 - 1631 mg/kg. Lead (as Pb) was observed in the range between 1.83 – 12.8 mg/kg. Manganese (as Mn) was observed in the range between 5.40 – 6.57 mg/kg. Mercury (as Hg) was observed below detection limit. Zinc (as Zn) was observed in the range between below detection limit to 1.91 mg/kg. Nickel (as Ni) was observed in the range between below detection limit to 0.690 mg/kg. Micro benthic organisms were observed in the range between 30200 – 38200 /m² and macro benthic organisms were observed in the range 17400 – 20100 /m².

At the location **Port Basin**, the observed texture was clay and sandy, Organic matter was observed in the range between 6.10 – 18.0 %, Total Phosphorus (as P) was observed in the range between 13.4 – 46.1 mg/kg. Aluminium (as Al) was observed in the range between 134 - 1667 mg/kg. Chromium (as Cr) was observed in the range between 7.55 – 13.4 mg/kg. Copper (as Cu) was observed in the range between 0.510 – 0.750 mg/kg. Iron (as Fe) was observed in the range between 675 - 4059 mg/kg. Lead (as Pb) was observed in the range between 0.192 – 8.00 mg/kg. Manganese (as Mn) was observed in the range between 2.29 – 14.6 mg/kg. Mercury (as Hg) was observed below detection limit. Zinc (as Zn) was observed in the range between below detection limit to 3.20 mg/kg. Nickel (as Ni) was observed in the range between below detection limit to 3.08 mg/kg. Micro benthic organisms were observed in the range between 77800 – 79800 /m² and macro benthic organisms were observed in the range between 59100 - 61200 /m².

At the location **Inner Approach Channel**, the observed texture was clay and sandy, Organic matter was observed in the range between 0.580 – 5.6 %, Total Phosphorus (as P) was observed in the range between 21 – 38 mg/kg. Aluminium (as Al) was observed in the range between 512 - 766 mg/kg. Chromium (as Cr) was observed in the range 5.14 – 24.7 mg/kg. Copper (as Cu) was observed in the range between 0.121 – 0.410 mg/kg. Iron (as Fe) was observed in the range between 1926 - 2450 mg/kg. Lead (as Pb) was observed in the range between 1.23 – 10.0 mg/kg. Manganese (as Mn) was observed in the range between 3.75 – 9.93 mg/kg. Mercury (as Hg) was observed below detection limit. Zinc (as Zn) was observed in the range between below detection limit to 3.14 mg/kg. Nickel (as Ni) was observed in the range between below detection limit to 2.03 mg/kg. Micro benthic organisms were observed in the range between 28100 – 32800 /m² and macro benthic organisms were observed in the range between 8500 – 9000 /m².

adani	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

At the location **Kovalam Beach**, the observed texture was clay and sandy, Organic matter was observed in the range between 4.37 – 6.90 %, Total Phosphorus (as P) was observed in the range between 20.5 – 33.0 mg/kg. Aluminium (as Al) was observed in the range between 503 - 743 mg/kg. Chromium (as Cr) was observed in the range 9.61 – 27.5 mg/kg. Copper (as Cu) was observed in the range between 0.093 – 0.850 mg/kg. Iron (as Fe) was observed in the range between 2481 - 2923 mg/kg. Lead (as Pb) was observed in the range between 2.99 – 11.1 mg/kg. Manganese (as Mn) was observed in the range between 1.39 – 7.10 mg/kg. Mercury (as Hg) was observed below detection limit. Zinc (as Zn) was observed in the range between 0.620 to 4.96 mg/kg. Nickel (as Ni) was observed in the range between below detection limit to 5.41 mg/kg. Micro benthic organisms were observed in the range between 90800 – 96700 /m² and macro benthic organisms were observed in the range between 90100 - 93100 /m².

CHAPTER 6

Water Analysis

1. Ground water and surface water sources details:

This chapter describes the sampling location, methodology adopted for analysis and analysis results of Ground water and Surface water during the period April 2018 to September 2018. Ground water sampling was carried out at three locations including Port Site, PAF Area and Proposed Port Estate Area and surface water sampling was carried out at Poovar West Canal, Vizhinjam Branch Canal and Vellayani Lake.

Table 6.1: Ground Water Location details

Sr. No.	Location	Latitude	Longitude
Ground Water			
1.	Port Site	8 ⁰ ,22',06.03" N	77 ⁰ ,00',17.03" E
2.	PAF Area	8 ⁰ ,22',20.43" N	77 ⁰ ,00',04.06" E
3.	Proposed Port Estate Area	8 ⁰ ,22',24.64" N	77 ⁰ ,01',46.27" E
Surface Water			
1.	Poovar West Canal	8 ⁰ ,19',08.18" N	77 ⁰ ,04',35.30" E
2.	Vizhinjam Branch Canal	8 ⁰ ,22',49.55" N	76 ⁰ ,59',35.01" E
3.	Vellayani Lake	8 ⁰ ,25',30.71" N	76 ⁰ ,59',37.70" E

5. Summary- Ground Water Analysis

During the period April 2018 to September 2018, at the location **Port Site** (Open Well), the Colour observed was 1 Hazen unit and the odour was agreeable. pH was observed in the range between 6.58 – 6.99. Turbidity was observed in the range between below detection limit to 3.70 NTU. Total Dissolved Solids was observed in the range between 302 - 456 mg/L. limit. Calcium (as Ca) was observed in the range between 16.0 – 38.4 mg/L. Chloride (as Cl) was observed in the range between 98.0 – 186 mg/L. Fluoride (as F) was observed in the range between below detection limit

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

to 0.200 mg/L. Iron (as Fe) was observed in the range between below detection limit to 0.290 mg/L. Magnesium (as Mg) was observed in the range between 12.6 – 21.9 mg/L. Manganese (as Mn) was observed in the range between below detection limit to 0.033 mg/L. Nitrate (as NO₃) was observed in the range between below detection limit to 4.90 mg/L. Sulphate (as SO₄) was observed in the range between 29.5 – 66.0 mg/L. Total Alkalinity (as CaCO₃) was observed in the range between 25.0 - 115 mg/L. Total Hardness (as CaCO₃) was observed in the range between 92 - 174 mg/L. Aluminium (as Al), Ammonia (as NH₃- N), Anionic Detergents, Barium (as Ba), Boron, Chloramines (as Cl₂), Copper (as Cu), Mineral Oil, Phenolic Compounds (as C₆H₅OH), Selenium (as Se), Silver (as Ag), Sulphide (as H₂S), Zinc (as Zn), Cadmium (as Cd), Cyanide (as CN), Lead (as Pb), Mercury (as Hg), Molybdenum (as Mo), Nickel (as Ni), Total Arsenic (as As), Total Chromium (as Cr), Pesticide Residues, Trihalomethanes, Polychlorinated Biphenyls (PCB) and Polynuclear Aromatic Hydrocarbons (PAH) were observed below detection limit. Bacteriological parameters such as *E.coli* was observed in the range between <1.8 - 11 MPN Index/100 mL and Total Coliforms were observed in the range between <1.8 - 70 MPN Index/100 mL.

At the location **Proposed Port Estate Area** (Open Well), the Colour observed was 1 Hazen unit and the odour was agreeable. pH was observed in the range between 6.12 – 8.12. Turbidity was observed in the range between below detection limit to 0.200 NTU. Total Dissolved Solids was observed in the range between 48.0 - 242 mg/L. Calcium (as Ca) was observed in the range between 2.40 – 26.4 mg/L. Chloride (as Cl) was observed in the range between 16.0 – 112 mg/L. Fluoride (as F) was observed in the range between below detection limit to 0.400 mg/L. Iron (as Fe) was observed in the range between below detection limit to 0.280 mg/L. Magnesium (as Mg) was observed in the range between 1.46 – 9.80 mg/L. Manganese (as Mn) was observed in the range between below detection limit to 0.021 mg/L. Nitrate (as NO₃) was observed in the range between 1.92 – 9.80 mg/L. Sulphate (as SO₄) was observed in the range between 11.1 – 40.5 mg/L. Total Alkalinity (as CaCO₃) was observed in the range between 10.0 – 70.0 mg/L. Total Hardness (as CaCO₃) was observed in the range between 12.0 - 102 mg/L. Aluminium (as Al), Ammonia (as NH₃- N), Anionic Detergents, Barium (as Ba), Boron, Chloramines (as Cl₂), Copper (as Cu), Iron (as Fe), Mineral Oil, Phenolic Compounds(as C₆H₅OH), Selenium (as Se) and Silver (as Ag), Sulphide (as H₂S) Zinc (as Zn), Cadmium (as Cd), Cyanide (as CN), Lead (as Pb), Mercury (as Hg), Molybdenum (as Mo), Nickel (as Ni), Total Arsenic (as As), Total Chromium (as Cr), Pesticide Residues, Trihalomethanes, Polychlorinated

	Adani Vizhinjam Port Private Ltd	From : April 2018 To : September 2018
Vizhinjam International Deepwater Multipurpose Seaport Environment Monitoring Report from April 2018 to September 2018		

Biphenyls (PCB) and Polynuclear Aromatic Hydrocarbons (PAH) were observed below detection limit. Bacteriological parameters such as *E.coli* was observed in the range between 0 to <1.8 MPN Index/100 mL and Total Coliforms were observed in the range between <1.8 to 63 MPN Index/100 mL.

At the location **Proposed PAF Area** (Open Well), the Colour observed was 1 Hazen unit and the odour was agreeable. pH was observed in the range between 6.16 – 6.86. Turbidity was observed in the range between below detection limit to 0.900. Total Dissolved Solids was observed in the range between 208 - 428 mg/L. Calcium (as Ca) was observed in the range between 9.12 – 44.0 mg/L. Chloride (as Cl) was observed in the range between 82 - 170 mg/L. Fluoride (as F) was observed in the range between below detection limit to 0.300 mg/L. Iron (as Fe) was observed in the range between below detection limit to 0.280 mg/L. Magnesium (as Mg) was observed in the range between 4.20 – 19.9 mg/L. Manganese (as Mn) was observed in the range between below detection limit to 0.100 mg/L. Nitrate (as NO₃) was observed in the range between 1.91 – 5.61 mg/L. Sulphate (as SO₄) was observed in the range between 26.6 – 82.4 mg/L. Total Alkalinity (as CaCO₃) was observed in the range between 10.0 – 52.0 mg/L. Total Hardness (as CaCO₃) was observed in the range between 92 – 192 mg/L. Aluminium, Ammonia (as NH₃- N), Anionic Detergents and Barium (as Ba), Boron (as B), Chloramines (as Cl₂), Copper (as Cu), Manganese (as Mn), Mineral Oil, Phenolic Compounds (as C₆H₅OH), Selenium (as Se) and Silver (as Ag), Sulphide (as H₂S), Cadmium (as Cd), Cyanide (as CN), Lead (as Pb), Mercury (as Hg), Molybdenum (as Mo), Nickel (as Ni), Total Arsenic (as As), Total Chromium (as Cr), Pesticide Residues, Trihalomethanes, Polychlorinated Biphenyls (PCB), Polynuclear Aromatic Hydrocarbons (PAH) and Zinc (as Zn) were observed below detection limit. Bacteriological parameters such as *E.coli* was observed in the range between 0 to 4.50 MPN Index/100 mL and Total Coliforms were observed in the range between <1.8 to 39 MPN Index/100 mL.

6. Surface Water Analysis Results for the period April 2018 to September 2018:

8. Summary of Surface water

During the period April 2018 to September 2018, at the location **Poovar West Canal**, Colour was observed 1 Hazen unit and odour was agreeable. pH was observed in the range between 6.33 – 7.18. Turbidity was observed in the range between below the detection limit to 2.40 NTU. Total Dissolved Solids was observed in the range between 64 - 946 mg/L. Electrical Conductivity was observed in the range between 108 - 1690 $\mu\text{mho/cm}$. Dissolved Oxygen was observed in the range between 6.00 – 6.80 mg/L. Biochemical Oxygen Demand (3 days, 27°C) was observed in the range between 1.10 – 2.50 mg/L. Free Ammonia was observed in the range between below the detection limit to 0.200 mg/L. Calcium (as Ca) was observed in the range between 4.80 – 18.4 mg/L. Chloride (as Cl) was observed in the range between 13.0 - 570 mg/L. Fluoride (as F) was observed in the range between below the detection limit to 0.400 mg/L. Iron (as Fe) was observed in the range between below the detection limit to 0.260 mg/L. Magnesium (as Mg) was observed in the range between 3.40 – 40.9 mg/L. Manganese (as Mn) was observed below the detection limit. Nitrate (as NO_3) was observed in the range between 1.10 – 6.61 mg/L. Sulphate (as SO_4) was observed in the range between 8.51 – 71.0 mg/L. Total Phosphate (as PO_4) was observed in the range between below the detection limit to 0.100 mg/L. Total Alkalinity (as CaCO_3) was observed in the range between 15.0 – 22.5 mg/L. Total Hardness (as CaCO_3) was observed in the range between 26.0 – 190 mg/L. Calcium Hardness (as CaCO_3) was observed in the range between 12.0 – 46.0

mg/L. Sodium (as Na) was observed in the range between 2.70 – 15.9 mg/L. Potassium (as K) was observed in the range between 1.70 – 8.70 mg/L. Sodium Absorption Ratio was observed in the range between below the detection limit to 1.55. Oil & Grease, Anionic Detergents and Barium (as Ba), Boron (as B), Copper (as Cu), Mineral Oil, Phenolic Compounds (as C₆H₅OH), Selenium (as Se) and Silver (as Ag), Zinc (as Zn), Cadmium (as Cd), Cyanide (as CN), Lead (as Pb), Mercury (as Hg), Total Arsenic (as As), Total Chromium (as Cr), Pesticide Residues and Polynuclear Aromatic Hydrocarbons (PAH) were observed below detection limit. Bacteriological parameters such as Total Coliforms were observed in the range between 13 to 79 MPN Index/100 mL and Faecal Coliforms were observed in the range between 0 to 22 MPN Index/100 mL.

At the location **Vizhinjam Branch Canal**, Colour was observed 1 Hazen unit and odour was agreeable. pH was observed in the range between 6.59 – 7.40. Turbidity was observed in the range between below detection limit to 1.90 NTU. Total Dissolved Solids was observed in the range between 122 - 174 mg/L. Electrical Conductivity was observed in the range between 220 - 310 μ mho/cm. Dissolved Oxygen was observed in the range between 6.10 – 7.00 mg/L. Biochemical Oxygen Demand (3 days, 27°C) was observed in the range between 1.00 – 3.10 mg/L. Calcium (as Ca) was observed in the range between 10.4 – 14.4 mg/L. Chloride (as Cl) was observed in the range between 31.0 – 49.0 mg/L. Fluoride (as F) was observed in the range between below detection level to 0.300 mg/L. Iron (as Fe) was observed in the range between below detection level to 0.456 mg/L. Magnesium (as Mg) was observed in the range between 3.88 – 6.80 mg/L. Manganese (as Mn) was observed in the range between below detection level to 0.040 mg/L. Nitrate (as NO₃) was observed in the range between below detection level to 8.17 mg/L. Sulphate (as SO₄) was observed in the range between 2.12 – 28.5 mg/L. Total Alkalinity (as CaCO₃) was observed in the range between 30.0 – 80.0 mg/L. Total Hardness (as CaCO₃) was observed in the range between 44.0 – 64.0 mg/L. Calcium Hardness (as CaCO₃) was observed in the range between 26.0 – 36.0 mg/L. Sodium (as Na) was observed in the range between 1.50 – 16.0 mg/L. Potassium (as K) was observed in the range between 1.70 – 6.80 mg/L. Sodium Absorption Ratio was observed in the range between 0.930 – 1.35. Oil & Grease, Free Ammonia, Anionic Detergents and Barium (as Ba), Boron (as B), Copper (as Cu), Mineral Oil, Phenolic Compounds (as C₆H₅OH), Selenium (as Se), Silver (as Ag), Total Phosphate (as PO₄), Zinc (as

Zn), Cadmium (as Cd), Cyanide (as CN), Lead (as Pb), Mercury (as Hg), Total Arsenic (as As), Total Chromium (as Cr), Pesticide Residues and Polynuclear Aromatic Hydrocarbons (PAH) were observed below detection limit. Bacteriological parameters such as Total Coliforms were observed in the range between 14 to 47 MPN Index/100 mL and Faecal Coliforms were observed in the range between 0 to 14 MPN Index/100 mL.

At the location **Vellayani Lake**, Colour was observed 1 Hazen unit and odour was agreeable. pH was observed in the range between 6.49 – 7.05. Turbidity was observed in the range between below detection limit to 6.20 NTU. Total Dissolved Solids was observed in the range between 68 - 94 mg/L. Electrical Conductivity was observed in the range between 123 - 168 $\mu\text{mho/cm}$. Dissolved Oxygen was observed in the range between 5.60 – 6.20 mg/L. Biochemical Oxygen Demand (3 days, 27°C) was observed in the range between 1.70 – 3.40 mg/L. Free Ammonia was observed in the range between below detection level to 0.420 mg/L. Calcium (as Ca) was observed in the range between 6.40 – 9.61 mg/L. Chloride (as Cl) was observed in the range between 21.7 – 34.0 mg/L. Fluoride (as F) was observed in the range between 0.050 – 0.200 mg/L. Iron (as Fe) was observed in the range between below detection level to 0.813 mg/L. Magnesium (as Mg) was observed in the range between 2.43 – 4.37 mg/L. Manganese (as Mn) was observed in the range between below detection level to 0.049 mg/L. Nitrate (as NO_3) was observed in the range between 1.33 – 2.60 mg/L. Sulphate (as SO_4) was observed in the range between below detection level to 5.65 mg/L. Total Alkalinity (as CaCO_3) was observed in the range between 20.0 – 30.0 mg/L. Total Hardness (as CaCO_3) was observed in the range between 28.0 – 38.0 mg/L. Calcium Hardness (as CaCO_3) was observed in the range between 14.0 – 24.0 mg/L. Sodium (as Na) was observed in the range between 0.690 – 11.9 mg/L. Potassium (as K) was observed in the range between 1.70 – 3.90 mg/L. Sodium Absorption Ratio was observed in the range between below the detection limit to 0.950. Oil & Grease, Anionic Detergents and Barium (as Ba), Boron (as B), Copper (as Cu), Mineral Oil, Phenolic Compounds (as $\text{C}_6\text{H}_5\text{OH}$), Selenium (as Se) and Silver (as Ag), Zinc (as Zn), Cadmium (as Cd), Cyanide (as CN), Lead (as Pb), Mercury (as Hg), Total Arsenic (as As), Total Chromium (as Cr), Total Phosphate (as PO_4), Pesticide Residues and Polynuclear Aromatic Hydrocarbons (PAH) were observed below detection limit. Bacteriological parameters such as Total Coliforms
