

Water and Effluents

We believe in the egalitarian sharing of water among the community and business by conserving the shared natural resource

Ensure availability and sustainable management of water and sanitation for all

Key Drivers

Water Stewardship Policy

Committed to CEO Water Mandate

Pledged for WASH at Work Place

Key Milestones Achieved

3952 ML
Water Consumed

76%
Water withdrawal from Non-Shared Resources

6 ML
Rainwater Harvested

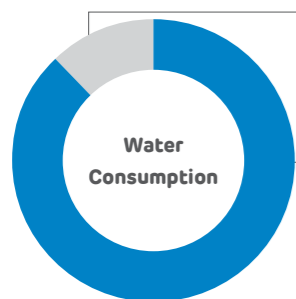

₹203 Cr.+
Investment for Water Management

9 MLD
Wastewater Treatment Capacity

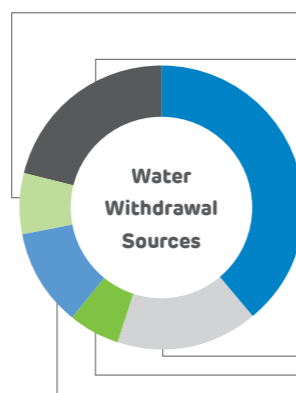

528 ML
Wastewater Treated & Reused

13 ML
Safe Drinking Water Provided to Community

837 ML
Used Treated Wastewater of Other Industries

12% Treated Wastewater from Own Facilities
88% Freshly Withdrawal Water Consumed

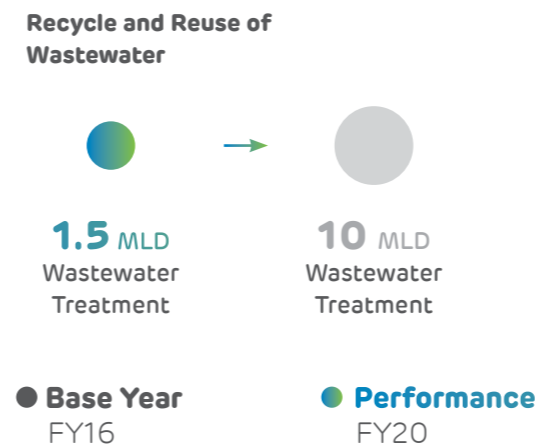

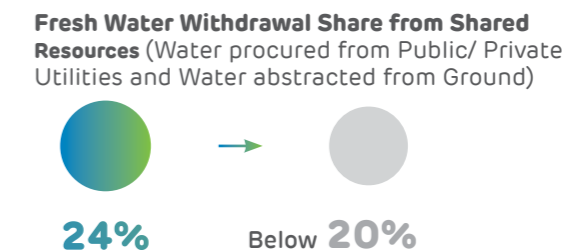

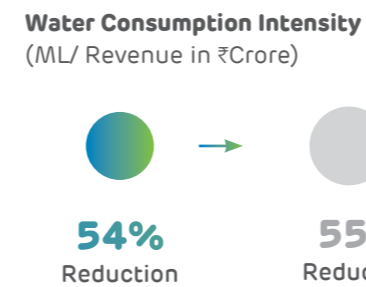

7% Third Party - Private Utility
21% Third Party - Wastewater of Other Industries
39% Sea Water
16% Surface Water
6% Ground Water
11% Third Party - Public Utility

Targets and Performance

Using the Unused

Our major focus is on diverting wastewater of other industries or local communities to our treatment facilities, treat it and utilize in our operations. This will not only improve the hygiene of the area but will reduce the stress on shared water resources.

Future Milestones

Water Audit

WASH Initiatives

Rain Water Harvesting

Sea Water Intake & Outfall

Community Wastewater Treatment Plant
