Single or Twin screw?	:		13	Confirm vessel has been covered under P&I club?	:		14	Is your Vessel fit in all aspect for safe berthing?	:		15	No. of crew on board and their Nationality.	:		16	Bow Thruster power in BHP (if available)	:		17	Master's Name/ Nationality	:	
Sr. No.	PARTICULARS	:	DETAILS																																																																						
1	Vessel's Flag & Year of built	:																																																																							
2	LOA, Beam, Present Displacement	:																																																																							
3	Last port of call	:																																																																							
4	Vessel's Arrival Draft (F&A)	:	F- A-																																																																						
5	Vessel's present Free board	:																																																																							
6	GRT / NRT	:																																																																							
7	Confirm, all mooring winches (F & A) and both anchors (P & S) are operational?	:																																																																							
8	Shore mooring pattern is _____ (F & A). Confirm you have ____ lines in Fwd mooring station and ____ lines in Aft mooring station available onboard?	:																																																																							
9	Confirm, if vessel will be using one mooring line from one end only (use of both ends of mooring line is not allowed).																																																																								
10	Is propeller fully submerged in water? (if in ballast)	:																																																																							
11	Anchor heaved up time (if anchored)																																																																								
12	Is propeller fixed pitch or CPP? Single or Twin screw?	:																																																																							
13	Confirm vessel has been covered under P&I club?	:																																																																							
14	Is your Vessel fit in all aspect for safe berthing?	:																																																																							
15	No. of crew on board and their Nationality.	:																																																																							
16	Bow Thruster power in BHP (if available)	:																																																																							
17	Master's Name/ Nationality	:																																																																							
<p>Radio Officer (Date / Time)</p>
